I carefully washed the sores with warm water and carbolic and applied the salve again three times a day, each time, when removating the bandage, washing the sores well. In a few days I found my ankle had turned quite black with a discharge of dark clotted matter, and the knots began to disappear and I began to get relief. Then came a discharge of yellowish matter and finally the sores healed up. I have not the slightest pain and am perfectly cured. I have resumed my position as nurse again, and will cheerfully recommend your salve as a positive cure to any one who is afflicted with varicose veins.
