The steamship of the various lines have all the busi- ness they can handle for the balanco- of the season. Some 17 or 18 propelleri are just now loading wheat and corri in Chicago, destined for Montreau each carrying 40,000 or 50,000 bushess There is probably 1,500,000 bush- els of grain from the lake ports all told, now on the way and booked for Montreal. This year will witness the largest export that has ever beer transacted from Montreal. The ship- ping that is now being handled by that port gives us an idea of its pos- sibilities in this line when the St Lawrence system is deepened so as to correspond with the Welland Canal Fourteen feet of water would double the capacity of these propellers and consequently greatly reduce freights in favor of Montreal, as against New York. A GIGANTIC MONOPOLY. The Hamilton Times charges The World with dishonesty in its attack on the Ontario Government for selling the water power of Niagara Falls to an alien company for a mere song The World reasserts that the bargant between the Government and the Am- erican Power Company is a scandalour one. The Times makes out that the interests of this province have been duly safeguarded. Our contemporary thus summarizes the salient points in the agreement: The facts with regard to the Power Company license are simple: The Queen Victoria Niagara Falls Park Commissioners entered into an agree- ment with it for a power privilege at a rental of \$25,000 a year for 20 years, from Nov. 1, 1892, with the privilege of a rental of \$25,000 a year for 20 years, from Nov. 1, 1892, with the privilege at a rental of \$25,000 a year for 20 years, from Nov. 1, 1892, with the privilege of a power from Niagara Falls Park Commissioners entered into an agree- ment with it for a power privilege at a rental of \$25,000 a year.
