action in the direction of insulating reforms.

The Birmingham Post prints a London despatch similar to the one described above, qualifying it by saying "it is stated" that fleets will shortly be mobilized, in order that they may be ready if it should become necessary to enforce reforms in the Ottoman Empire. These reports do not attract much attention here, as they are regarded as belonging to the series of solutions of the Turkish situation which are always shown to be false when enquired into.

navy.
The Minister of Marine declared that The Minister of Marine declared that the condition of the navy was not so unfavorable as its critics allege. The Government, however, had for several months been studying a program for increasing the strength of the fleet, and it would soon be decided to ask Parliament for money to carry it out. But, said the Admiral, in conclusion, the Government would reject any suggestion to re-establish any extraordinary budget for the navy.

SPAIN SHOWS HER TEETH.

She Has Forces Sufficient to Punish Inter-

terence of the United States. Madrid, Dec. 9.-The Madrid newspapers are greatly excited over the references to Cuba and Spain contained in President Cleveland's message to the United States Congress, and declare the intervention of the United States in Cuba would be unbearably humilating to Spain.

El Correspondencia Militari says Spain has forces more than sufficient to punish any interference on the part of the United States in the affairs of Spain.

The Heraldo says that the Cabinet will hold a meeting to-day for the purpose of considering President Cleveland's message to Congress. Ex-Premier Sagasta declares that the message is of so much importance that he will await the receipt of the whole text of the document before discussing it. Some of the Spanish newspapers declare that the message provokes Europe, not Spain alone.

Back Broken. Niagara Falls, Ont., Dec. 9.-(Speliam Mullen, sr., a weil-known resident of this place, met with a very serious accident, which will, in all probability, prove fatal. While on his way home he walked into an open sewer trench at the corner of Park-street and Well-and-avenue. Mr. Mullen was found by the watchman who keeps watch over the place at night. He was lifted out of the hole and taken to his home and medical aid summoned. Dr. McGarry attended him and found that his spine was fractured about four inches below the neck. Mr. Mullen has not as
