Standard-Bred and Thorobred Champions, Have Had Big Seasons in the Stud-Colts Promising.

It is always interesting to know that the owners of good mares appreciate a high-class stallion, and favor such a horse with their patronage. Thayer Brothers of Aylmen owners of Nasbaden, winner of the thorobred stallion class at the last local horse show. and Crow and Murray, the local horsemen, who own Jack McKerron, 2.0714, champion standard-bred stallion at the same show, report that their horses

Jack McKerron's first crop of colts are only weanlings, but a better-looking lot would be hard to find, even on the big stock farms, and the popularity of this champion stallion is attested by the fact that every mare that had a foal by him this spring was returned to his court.

The difficulty is that we have not enough stallions of the class of Nasbaden and Jack McKerron in this country.

The racing was of the keenest character, and while there may have been one or two reversals of form, little suspicion was attached to any of the

The easy victory of the crack Kentucky colt. Hawthorn, on the opening day, when he ran six furlongs in 1.122-5, winning by three lengths in the easiest possible manner, and his defeat two days latter by Horron at the same distance, caused considerable talk and in consequence, the stewards gave the second race a thore investigation, and undoubtedly, they were quite right in concluding that Hawthorn was really not himself, or, at least, not in as good form as on the opening day.

If the official timekeeper, W. H. Barretto, is correct, Harry Payne Whitney's wonderful racehorse, Whisk Broom II., broke the world's record for a mile and a quarter, when he won the classic Suburban Handicap, at Belmont Park, in an even 2 minutes. Barretto had erred by stopping his watch as Whisk Broom II. flashed past the regular finish pole, instead of the special mark for this race, about 30 yards further on. But, when asked about this important point, Mr. Barretto declared positively that he had made no mistake, that he started his watch when the yellow flag at the barrier was dropped, and stopped it when Whisk Broom II. reached the special judges' stand, where another time flag was used as a finish signal-W. C. Edwards, who was in the timers' stand, backed the veteran official up in this contention. Furthermore, Louis Garth, a well-known trainer, said he timed the race in 2.00 1-5. Deputy Fire Chief Lally, of Brooklyn, who times many races for amusement, said his watch showed that the Whitney racer ran the last mile in 1.36. This would bear out Timer Barretto's figures, for he timed the first quarter in 0.24, the half in 0.47 1-5, and the three-quarters in 1.12, Whisk Broom II. therefore running the last half mile, according to the Barretto watch, in 0.48 — by no

Aside from the controversy over the time, Whisk Broom II. proved beyond the question of doubt that he is one of the greatest racehorses ever seen in this or any other country. Mr. Whitney won many big races with him in England, but he brought the stallion back here to help the turf in its present troubled state. Mr. Whitney's sportsmanship was par-tially rewarded when Whisk Broom II. was victorious in both the Metropolitan and Brooklyn handicaps, at this track, but his greatest triumph was reserved for the Suburban, which by the way, was won for the first time by a horse bearing the popular Whitney colors.

Only six horses went to the bar-Only six horses went to the barrier. Trainer James Rowe decided to send Night Stick, a 3-year-old son of Broomstick, to the post with Whisk Broom II. The Whitney entry therefore ruled favorite at a prohibitive price. R. F. Carman's pair, Meridian and G. M.
