

EXPLANATION OF CALENDAR PAGES.

The Publisher of this Almanac, with a view to increase its circulation and usefulness, has for several years past, adapted its calculations for the whole country. His plan has been everywhere appreciated and is still continued. The Moon's changes are given for five different places, viz: Quebec, Montreal, Kingston, Toronto, and London. The rising and setting of the Sun are given for Montreal and Toronto. The rising and setting of the Moon are given with sufficient exactness for all practical purposes. The weather prognostications are again made according to the table of the celebrated Dr. Herschel; and for extraordinary accuracy, Miller's Almanac stands without any competition.
