Pullmans Ahead.
A rearrangement of the order of the passenger coaches on through trains passing through Statesville has been noticed. The Pullmans are carried next to the engine with day coaches, followed by the "jim crow" car and baggage and express cars. This reversed order has become a law with through trains, being adopted as a safety measure, that the steel cars may be next the engine. It has been observed in railway wrecks that steel cars in the rear of the train have caught and crushed lighter coaches next the engine, causing great loss of life and property. The carrying of the heavy steel cars next the engine is deemed safer.—Statesville (N. C.) Record.

THE LIGHT OF LOVE.
The great shortage of matches reminds us of this story. A widower had engraved on his wife's tombstone the words "The light of my life has gone out." A little later he married again, and one Sunday was standing with No. 2 before his first wife's grave. Reading the above sentiment, the lady inquired in a rather huffed tone, "Is that so?" "Yes," replied he, "but I've struck another match!"
