Retail merchants are buying more National Cash Registers than ever before

THOUSANDS of Canadian retail merchants realize to-day that a modern National Cash Register System is necessary to successful storekeeping.

During the war, labor of all kinds was scarce and costly. Retail merchants found it difficult to secure help.

Storekeepers from coast to coast solved this problem by installing a National Cash Register System.

In this way they were able to take care of their growing business efficiently and with fewer clerks. At the same time they secured complete store records—without the old-time drudgery and worry.

As these facts have become more widely known, the demand for National Cash Registers has increased.

In the last few months the demand for National Cash Register Systems has been bigger than ever before in the history of the National Cash Register Company of Canada, Limited.

This demand is being met by increased facilities at our Canadian plant in Toronto. The factory is ready to supply National Cash Registers for every line of business. It is in a position to make prompt deliveries and to give quick service.

A post card or phone call will bring you full information about the way a modern N.C.R. System will speed up your store service and keep your store records by machinery.
