medicine known to the world.

As it is frequently expedient that my medicine should be taken until the councet of an attending Physician, and as he could not preperly induce of a remedy without knowing its composition. I have supplied the secretar Formula by which both my Pectoral and Fills are made to the whole body of Practicioners in the United States and British American Frontines. It however there should be anyone, who has not received them, they will be promptly fervarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known. Their life consists in their mystery. I have no investment. The composition of my preparations is laid open to sil man, and all who are competent to pudge on the subject, freely askingwhelded their convictions of their intrinsic margis. The Cherry Pertonal was presonanced by seaffills man the be a wonderful medicine before its effects were known. Many crament Physicians have declared the same thing of my Pills; and even more confidently, and are will only overtify that their autiquations were more than realized by their effects upon trail. They approach boxels, liver, and other cogning of the internal viscers to pairly the blood and stimulate it auto, healthy action—are membra as are the first origin of directs.

Being sugar stapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
