City Council Polished Off Business. Handily in Session Last · Evening.

Craigflower Road By-Law Laid Over Again-Compensation Clause to Be Inserted.

vim which did them infinite credit. Combined with this was the spirited character of the debates, during which the city fathers had ample opportunity for a deand caustic rejoinder. They are a good natured body, however, and the miniature tempests which sometimes disturb the placidity of their sessions very quickly subside. The Craigflower Road Reward, but a number of the aldermen expressed themselves unfavorable to passing it until a compensation clause was incorporated. It was consequently again laid over and the city solicitor instructed to draft a clause which will provide for the expropriation of land and the valuation by arbitration.

After the customary preliminaries, communications were taken up. Sir Wilfrid Laurier and J. M. Courtenay, deputy minister of finance, acknowledged the receipt of copies of the resolution of the city council referring to the establishment of a mint, and stated that

the matter would receive their consideration. Received and filed. P. R. Brown, manager of the Colonist P. & P. Co., informed the council that it was the intention of the Colonist to issue a special number in the early part of January, in which an article on this city would occupy a prominent portion. He asked that the council secure 5,000 copies for mailing. Referred to the finance committee for report.

S. A. Spencer asked for the continuation of a box drain on Johnson street to drain property belonging to him. Referred to the city engineer for report.

H. J. Knott drew attention to the defective electric light on Harrison street. which frequently went out and conse quently increased the danger of acci-Referred to the electric light committee for report.

James Lee & Son asked that a portion

of David street between Turner and Bridge streets, be opened sufficiently to permit operations of a team. Referred to the city engineer for report.

M. L. McMicking requested permission to plant shade trees from Kingston street in front of her residence, James Bay. Permission granted subject to approval of the city engineer.

The city engineer reported as follows Gentlemen;-I have the honor to sub mit the following report for your con-

Communication from James Bendroidt re sewer connection to house, No. 50 Quebec street-Upon examination of the system, I find it would be necessary to extend the sewer from the intersect of Menzies and Belleville streets westerly, thence southerly along Oswego street, a total distance of 1,120 feet, and as there are no more funds for sewerage extension, I do not think it possible to grant the request at present.

Re Kingston street school-I may say, this building is in the pumping area and, therefore, cannot be properly dealt with until that system is carried out.

Communication from T. A. Le Page, re surface drainage on Moss street-I have examined the above locality, and instructed the street superintendent to make the necessary repairs to the culvert complained of, together with a short section of box drain to be renewed, which, I trust, will be satisfactory.

C. H. TOPP. The report was dealt with seriatim. The first clause passed without discussion. The second and third met with a similar reception, and the report was

adopted in its entirety, Thomas Hooper requested that Government street in front of the Gim Fook Ynen block be repaired. Referred to the city engineer for report.

Henry Thrift, general secretary of the Settlers' Association of British Colum- propriated and valued by arbitration. bia, was responsible for a couple of voluminous epistles regarding railway connection between this city and the Mainland. The present by-law was dealt a clause to provide for compensation bewith in a delightfully refreshing but rather vague manner, while the communications breathes with an expression in favor of connection of some sort of improved transportation facilities; the delegates to attend a convention to be

4th. to discuss the matter. council which could take the question rested upon the mayor. under consideration.

Ald. Yates took a contrary view, explaining that the railway committee was competent to deal with the matter. It was finally decided to refer it to the lat-

ter committee. A lengthy document in the shape of a petition from George Jeeves et al was read regarding the railway by-law. Among other things there was incorporated the sum and substance of Ald. Williams's resolution, subsequently introduced, asking for the insertion of five certain clauses. These were enumerated in the columns of the Times last evening. The petition was referred to the railway committee for report despite the demur of Ald. Hall, who cogently pointed out that the railway committee was

overburdened already. J. Gerhard Tiarks and others petitioned for the repair of upper Bellot street. Referred to the city engineer

The electric light committee recommended that the tender of George Hinton & Co. of \$475 for supplying the

pumping station with a lighting plant be accepted. Adopted. The finance committee recommende the appropriation of \$4,278.63 for the

usual purposes. Adopted. The same committee recommen supplementary appropriation of \$1,548.75 for street work and the cost of placing the by-law before the ratepayers. Adopt-

Ald. Yates's motion asking for leave to introduce a by-law providing for the city's contribution of one-third the cost of the prolongation of Broad street was next considered and at the request of the mover it was laid over for one week The lengthy resolution of Ald. Williams, published in these columns last evening, was next taken up. The mayor remarked that he was constrained to The proceedings of the city council last | rule the motion out of order, inasmuch evening were carried on with a snap and as twenty-four hours' notice was required, and the present motion was posted Sunday evening, which he under-

stood was not legal. Ald. Williams, however, was not to be disconcerted. He had come armed with monstration of their ability for repartee a precedent. In support of his contention he read from the case of Rollins vs West Derby, to show that Sunday did count in matters of this sort.

Ald. Hall sounded a trumpet note of warning at this juncture by remarking "that the council would have the wrath opening by-law was again brought for of the clergy for desecrating the Sabbath by posting notices of motion on Sunday.'

The city solicitor being referred to, destroyed the potency of Ald. Williams's precendent by reading from the Municipal Clauses act, showing that Sunday did not count in the estimation of time as regards the notice of motion. The motion was thereupon ruled out of order. The father of it, with great celerity, then wanted a meeting Tuesday evening to consider it.

Ald, Cameron at this point asked whether such a motion was legal after the by-law had been dealt with and passed. The mayor explained that it would have to be referred back to the city council by himself

Then Ald. Stewart provoked an incipient explosion by saying that Ald. matter was only for the purpose of completing another printed aldermanic re lubbish and examined. cord for the next elections. Ald. Stewart waved a copy of last year's dodger to illustrate his remarks.

This nettled Ald, Williams, who called upon the mayor to rule Ald. Stewart out of order. He stated that he was no inconsiderable time, It is greatly did not propose to submit to this sort of wet dirt and debris. There are five thing. Ald, Stewart might think it very funny, but there was no sense in it. Ald, tSewart retorted that Ald. Williams should have known better than to from this it might be assumed that the wait until Sunday night on which to post

up a notice of motion. He (Ald. Williams) had been compelled to hunt up the janitor and unlock the door of the cause the worn appearance of the edge city hall in order that it might be placed on the bulletin board, where on Sunday it could not have been seen. Finally serenity was restored and the

Boy Makes Discovery

While Searching for Box Last Evening He Found a Skull.

Was Lying in the Rubbish Depository in a Corner of the Lot.

A rather weird find was made last Burnes block, Bastion square, and the provincial police have now on hand in consequence, the skull of an adult. whether white or Indian anatomists will have to ascertain, if it is deemed neces-

It appears that just about dusk, Cecil, the thirteen-year-old son of Mr. Emery, was asked by his father to go into the yard and procure a box of some sort. The lad searched around, and ultimately thought he had found what he wanted in the shape of an old box, which was lying in the corner. It was filled with rubbish, however, and while emptying it of the undesirable contents the youngster's astonished eyes fell upon a skull, with the frontal portion turned upwards as though its owner in life had lain down for repose, and never awaked.

Naturally the lad was somewhat disconcerted, and as he did not pry any further at that time, he probably came to the conclusion that there was a complete skeleton in the box. He hurried into the house with the startling intelligence that he had found a dead man. The father at first was under the impression that some one under the intoxication of liquor had retired to the seclusion of the yard to sleep off his stupor. Investigation, however, showed that there was at least a modicum of ground Williams's remarkable activity on this for the boy's perturbation, and the skuil was drawn from its environment of

> The provincial police were notified, and Duke the object was removed to their office. It appears to have been the skull of an ordinary sized head, and the general indications are that it has been buried for larger than the average. They are somewhat ground down at the ends, and party of whose existence the find is the indication, was an Indian, as the hard gritty food of the aborigines is likely to of the teeth.

But the most peculiar feature of the find is the adhesion to the frontal portion, of a substance resembling sacking, motion of Ald. Williams that a meeting and not unlike decomposed leaves. It is very soft, and separates easily at the touch. An analysis could ascertain whether it be a portion of the scalp or elections was reconsidered and finally rot, although it is hardly possible that such is the case. Hair is also visible in this substance, and as far as can be came up for consideration. The first seen is of a dark, almost ebony hue, It clause passed but the second, providing might have been that the skull had been for the declaration of the road as a pub. Placed in a sack a long period back, the Opening Meeting Will Be Held in St. lic highway, provoked much discussion. material of which had decomposed, or Ald. Stewart could not vote for this adhered to the frontal part. There are clause unless a compensation clause was the other points about the discovery of provided, and Ald. Beckwith said that any peculiar import except that the skull is very unclean, and is quite damp, while branch of the inter-denominational Sunthe eye cavities are filled with a stratum day school association will be held this

How long it has been in the place where it was found; how it came there: the council could ascertain where they in whose existence it was an essential Knott, commencing at 7 o'clock sharp, factor, are questions that must probably remain unanswered. There are no apshould exert themselves to any extraordinary extent because of its discovery. It is improbable that it was the property of an eccentric collector of such objects for a gruesome family curiosity box, for in that case it would be maintained in better condition. The anti quarian is usually sensitive in matters of this kind, and his property is generally in an excellent state of preservation.

Bastion square is perhaps the most historic locality of this city. Just about this spot, according to the annals of Victoria, this solid old municipality was founded. There is no information regarding the length of time that the receptacle in which the skull was found had been in that lot, and it might have remained there many years longer, but for the efforts of the lad in carrying out his parent's request.

PAINFUL ACCIDENT.

Employee of J. W. Mellor Receives Injuries to Face Through Stove Explosion.

Harry Fox, a painter in the employ of J. W. Mellor, is at the Jubilee hospital warehouse on Mason street, and had an explosion resulted, blowing the lid from the stove directly in the unfortuna ate man's face. He was removed to the house opposite, and Dr. Lewellyn Jones was summoned, who immediately had the sufferer taken to the Jubilee hospital. Mr. Fox's injuries are very painful, and at present he is too dazed to explain intelligently exactly how the accident occurred. His hearing has gone and his face is considerably bruised. From what can be learned, however, there must have been a quantity of rags saturated with benzine or some other chemical in the stove, which, when brought in contact with the flame, caused the explosion. He is resting as well as can be expected under the circumstances.

"HORTICULTURE IN B. C. Varieties of Fruit Most Profitable to Be Grown in Respective Districts.

Since Friday last the Provincial Board of Horticulture has been in session and much valuable work has been accomplished. Among the matters brought up was a report from Messrs. Palmer and Cunningham, the committee on brown plum rot, which is now being printed for distribution. The regulations of the board have been amended so as to more strictly guard against bad fruit being brought into the city, and it was decided that Mr. Cunningliam and Inspector Palmer should spend the winter in enlightening the farmers of the lower mainland on the value of spraying and other horticultural matters. Lists were made out showing the most profitable fruit to evening in a vacant let in the rear of the be grown for commercial purposes in the different districts as follows:
