OTTAWA. Aug. 9 .- Mulock is expect ed to report fully to his colleagues respecting the Pacific cable conference on his return to Ottawa. In the meantime the government has received a detailed statement of the working of the cable for the past year. The number of messages and words transmit ted during the year 1904-5 were approximately 177,968, and 2,056,953 res

Total receipts amount ed to £87,446 10s. 8d., (including special item of £5,118 on account of repair service rendered by Iris), against £80.118 last year. Surplus on actual working was, therefore £36,694. The board, however, set aside £35,000 renewal fund, and they had also to provide the sum of £77,544 for interest and sinking funds.
