

# HOME STUDY AND SUCCESS.

## THE DRAKE SERIES OF HOME STUDY BOOKS.

Never before has such an opportunity been given to men and boys the world over to make themselves thorough masters of all the leading mechanical and scientific trades and professions, and the avidity and eagerness with which so many are availing themselves of this unique chance to obtain, by so direct and easy a method, this practical and invaluable knowledge is the most potent testimonial to the high merit of the works that public sentiment can accord. The prices for these valuable works have been marked at a phenomenally low figure with a view to place them within the reach of everybody—ambitious men and boys of the narrowest means as well as their more prosperous co-workers.

## They Are Practical Omitting Nothing Essential and Containing Nothing Irrelevant

From the Home Study Series of books has been eliminated everything which can in the remotest degree divert the student's mind from the essentials of the subjects treated; thereby providing him with the necessary and useful knowledge by the most direct route and shortest cut and saving him many hours of misspent study.

Designed for employes of mills, factories, offices, the farm, etc., the Home Study works present all the rules, formulas and principles of practical science, describing processes, machinery, tools, etc., in such a manner as to enable the student to put in practice what he learns—in short these works make a practical operator of the student and not an eloquent theorist as is too often the case with the product of modern schools. The books are technical only within indispensable limitations, and in such instances care has been observed not to confuse the student with terms which to an untrained reader might appear ambiguous or obscure.

## DRAKE'S SELF-TEACHING BOOKS.

Each volume is a complete modern treatise—written so you can understand it.
