

FIELD NOTES

Regular trail into Roaring River.

Ascend west fork of river; proceed by monumented and blazed miner's trail to cirque at end of cañon.

When a short distance below the large falls, at a brown, smooth rock in creek bed, turn sharp to left-hand trail.

Climb mountain by miner's trail to old mine camp.

If snow is heavy above this point, work a way to large monument in gap. The east edge of snow is best.

From gap follow monuments down first lateral red ridge to east. This ridge ends in a granite knob. The monuments lead at first on the west slope of the ridge, then down the backbone to within about two or three hundred yards of the granite knob. Turn down east slope of ridge to the watercourse. Follow west side of watercourse to a good crossing, then down shale to grove of lodgepole pines. Cross west through trees to blaze in second grove to westward above lake. Follow monuments to slide rock on ledge. Best way across is to lash a log, as we did. Follow monuments to knoll west of first watercourse. Turn sharp to left down lateral ridge for about one
