ESTIMATED POPULATION, 1890—25,000.

The most pessimistic must acknowledge that Winnipeg has outridden the storm of depression, and is now steadily gaining in population. Attention is called to the large increase after the wonderful crop of 1887, and at the present estimate of the 1890 crop Winnipeg can look forward to her future greatness.

Respectfully,

THE HENDERSON DIRECTORY CO.

WINNIPEG, July, 1890.
