**Ouestions and Answers.** Miscellaneous.

Diverting Relief Funds.

Would it be legal for the ratepayers and citizens of a township on nomination day to direct (without the consent of the contributing parties) a portion of either money or farm products collected from the residents of a municipality, intended to have been forwarded as a relief fund to those suffering in Great Britain from the effects of the prevailing war in Europe, to a resident in the same township from which it was collected? A SUBSCRIBER. Ontario. Ans.-No

To Kill Lice on Stock and Poultry.

I notice from time to time questions asked how to kill lice on hens, cattle, horses, and pigs, and I send you my own recipe, which is both cheap and simple. and the best on record. Take two cups each of coal oil and soft soap; put in one pail of soft water; clean out the hen house and spray all around walls and roosts and nests with a watering can or whisk; repeat in eight or ten days. For pigs or other animals, warm the water and apply with watering can, or any other way desired. For sheep, use like any other dip, parting the wool and pouring on. This is an effective, harmless remedy, as there is no poison about it, and it will not only kill the lice, but clean the skin.

SAMUEL LANGMAN Simcoe Co., Ont.

Ans.—Care should be taken not to apply the coal oil without enough soap or blistering would likely result.

Mortgagee and Insurance.

A has a mortgage on B's farm. The mortgage states that B is to keep his huildings insured, but does not state in whose favor. If B's buildings burn down, has A a right to the insurance? Ontario.

Ans.-Assuming that the mortgage is expressed to have been made in pursuance of the Short Forms of Mortgages Act, and that the insurance clause is in the words provided by the Act, viz.: "And that the said mortgagor will insure the buildings on the said lands to the amount of not less than . . lawful money of Canada"; by the extended effect given to these words by the Act, the mortgagee, A, has a right to demand of B, the mortgagor, an assignment and delivery over to him, A, of the policy of insurance and receipts relating to it, and to receive payment of the insurance moneys, in the event of fire, accordingly

Gossip.

"Since the fall fairs we have sold to John L. Tait, of Glencoe, a very good two-year-old Aberdeen-Angus heifer, bred to Young Leroy, prize three-year-old bull at London Fair, and a Suffolk Down ram, for crossing purposes. Mr. Tait has been raising grade Aberdeen - Angus for some years, and now has started into pure-breds. J. S. H. Guest, of Appleby School, Oakville, purchased a nice in-calf helfer, Elm Park Keepsake 14th, bred to our champion, Elm Park Wizard. Wm. Charmon & Son, Oakwood. Ont., has bought a good herd-header in the Pride of Aberdeen-bull, Elm Park Pat. Messrs. Charmon have shown some good specimens of the breed at Lindsay Fair for some years, and we hope to have them soon at the large fall fairs Glendenning Bros., of Bennington, who I have heard have quite a reputation in their neighborhood for raising extra good beef cattle, have purchased a good type for raising feeding steers in Beauty's Wizard. This bull is out of our champion cow. Elm Park Beauty 4th, and by our chanpion bull, Elm Park Wizard. J. K. Schroeder, of Crediton, also purchased a useful bull for crossing purposes, and R. T. Dodds, of Scaforth, a good Pride of Aberdeen bull to breed on grade cows. Enquiries are coming in steadily. As the above, along with a carload of seventeen Aberdeen Angus cattle, and twelve Suffolk Pown sheep which we shipped to ten different parties in Western Canada in December, all goes to show that both these breeds, which have again won the champions and grand championships, both alive and in carcase, at Smithfield, England, are steadily winning their way purely on their merits.

## CALDWELL'S DAIRY MEAL

Analysis: Protein 20%, Fat 6.3%, Fibre 10%

Scientifically compounded to increase the milk flow. A high protein, Government guaranteed, complete balanced cow ration that will keep your herd in top condition and get you bigger milk vield.

## CALDWELL'S **MOLASSES MEAL**

The famous upbuilder of cattle, horses, sheep and hogs. Contains 84% Pure Cane Molasses and 16% Edible Moss. Makes ordinary feed more palatable and digestive, nourishes and conditions your animals better than anything else you can give.

## Cream Substitute CALF MEAL

Completely replaces whole milk for rearing calves. Guaranteed analysis gives Protein 19 to 20%, Fat 7 to 8%, Fibre 5%. Enables you to sell your whole milk and raise as good or better calves for less money.

If your dealer cannot supply you, write us direct. Free booklet on any or all of the above mailed on request.
