

Hard-Hitting Big Game Cartridges

are the only sure kind to make your hunting trip the success you expect it to be. Velocity and accuracy are the two important features in big game ammunition.

Dominion Cartridges

embody fully these requirements and supplement them with the reliability that comes from high quality materials, skillful workmanship and careful testing. A sensitive primer that flashes deep into the powder gives instant response to trigger and aim and makes Dominion the high-power ammunition for caribou, moose, bear, deer and all Canadian big game. A sure "hit and stop" is loaded into each cartridge to back up the sportman's aim. No matter what the shooting conditions Dominion Cartridges meet the requirements.

Dominion—the only Canadian-made ammunition.

Simonds Crescent Ground Cross-Cut Saws

This saw will cut 10 per cent. more timber, same time and labor being used, than any other brand of Cross-Cut Saw made. This guarantee has stood for thirty years.

There are two reasons for the superiority of the Simonds Saw—grinding and steel.

A saw that does not bind in the kerf cuts easy; a saw that binds is a bother. Crescent grinding insures saws ground so that the teeth are all of even thickness throughout the length of the saw, and the blade tapered for clearance to the greatest degree consistent with a strength of blade which enables the operator to push as well as pull the saw. Crescent grinding is an exclusive process, used only on Simonds Cross-Cut Saws.

Simonds Canada Saw Company, Limited, Montreal, Que. Vancouver, B.C. St. John, N.B.

Always buy a saw with a sharp cutting edge—not a soft saw—because the former lasts longer and keeps its edge better.

Simonds Steel will take a temper to hold a cutting edge and stay sharp for a longer time than any saw not made of Simonds Steel.

There are two reasons why you should buy Simonds Crescent Ground Cross-Cut Saws—Quality and Price.

Superior quality makes your cutting as easy as cutting can be.

The price is moderate for the saw value given. It is about the same as you would pay for an inferior saw; therefore, why not get the best for your money—a saw with the manufacturer's name, "Simonds," on it. It is your guarantee and your protection. The saw illustrated, Simonds Crescent Ground Saw, No. 22, is the most satisfactory saw for all usual sawing purposes. Insist on your hardware dealers supplying you with Simonds Saws. Write to the factory for further particulars.

Protection

Don't Haul Bricks IN JANUARY

Now is the time to haul while the weather and roads are good. Then you are all ready to start building that new home or barn away ahead of the other fellow next Spring. We might also say that

Interprovincial Pressed Brick

is the brick you should haul, that is, if it is a faced brick you are looking for. They are made of extra heavy shale, natural colors, and have fine cut edges and a very smooth surface.

Write for a set of samples and see for yourself what a strong, handsome brick "Interprovincial" really is.

Write to-day—all charges paid by us.
