ROSELEA FARM.

North-west of Virden, about one and a half miles, is situated the farm of Kenneth McIvor, known to most of our readers as the spot where Western rye grass was brought under cultivation. Besides bringing this nutritious fodder, so suitable for Western conditions, into prominence with the leading stockmer of this vast land and thus becoming so widely known, Mr. McIvor has also taken a foremost place as a breeder of Short-horn cattle, which has helped to widen the circle of his acquaintances. His herd at present are in fine condition, the matrons being large of size, with splendid constitution. The young stock are in fine shape, having wintered well. A number of young bulls—thick, deep fellows of good size and with plenty of masculinity—are ready for service. Strathcona =35421=, sired by Imp. Golden Measure, noted for his high-priced progeny, is the present stock bull. Golden Measure is leaving splendid stock. He was sired by Golden Count, bred by Wm. Duthie, and of the famous Missie family. The dam of Strathcona is Donside Beauty (imp.), by Prince of Fortune; grandam Donside Lass, by Gravesend. The oldest matron of the barnyard is Lady Bosshill, sire Bachelor, dam Eva, by Arnold. One of her daughters, Snowflake, sire Cairngorm, is of the same low-set, large, smooth type. Another choice one is Jenny Lind =30449=, sire Hickory Johnston, dam Minx, by Arnold. Pride of Roselea, sire Victor, dam Jenny Lind, is also one of great scale and true Scotch type. About 45 pure-bred Shorthorns are kept. A number of fine Yorkshire pigs are at home at Roselea Farm. A few of them are of Greenway's choicest breeding. At present, Mr. McIvor has no Western rye grass seed for sale, having disposed of it all to the Steele, Briggs Seed Co. We refer intending purchasers of stock to Mr. McIvor's ad., which will be found in this issue.

"The people to whom I sold the Grinder (No. 2) do a lot of grinding. They put through 175 bags last Thursday. They are well pleased with the machine."

ADAM MCGILL, Paisley, Ont.

"I run your No. 3 'RAPID-EASY' Grinder by engine, and grind rats from 60 to 75 bushels per hour, barley and spelt 80 bushels per hour. I run the machine at 1,400 per minute. The engine wears it easily, and the work could not be better. I grind for the public, and the farmers are our high recommend your Grinders."
