DE LAVAL CREAM SEPARATORS

used exclusively by
98% OF THE WORLD'S CREAMERIES

TEN YEARS AGO THERE WERE A DOZEN DIFFERENT makes of creamery or factory separators in use. Today over 98 per cent. of the world's creameries use De Laval Separators exclusively.

IT MEANS A DIFFERENCE OF SEVERAL THOUSAND dollars a year whether a De Laval or some other make of separator is used in a creamery.

EXACTLY THE SAME DIFFERENCES exist, on a smaller scale, in the use of farm separators. Owing to the fact, however, that most farm users do not keep as accurate records as the creameryman, or test their skim-milk with the Babcock tester, they do not appreciate just what the difference between a good and a poor separator means to them in dollars and cents.

consult a doctor. If you had the toothache you would call on a dentist. Why? Because these men are all specialists in their line, and you rely upon their judgment and skill.

WHEN IT COMES TO BUYING A SEPARATOR WHY not profit by the experience of the creameryman, which qualifies him to advise you correctly? He knows which separator will give you the best service and be the most economical for you to buy. That's why 98 per cent. of the world's creameries and milk dealers use the De Laval exclusively.

THERE CAN BE NO BETTER RECOMMENDATION for the De Laval than the fact that the men who make the separation of milk a business use the De Laval to the practical exclusion of all other makes of cream separators.

Your local De Laval agent will be glad to let you try a De Laval for yourself on your own place. If you don't know the nearest De Laval agent simply write the nearest main office, as below.

PEASE "ECONOMY" FURNACE

Summer Temperature in Zero Weather

This is what happens when you have a Pease furnace in your home. This is an actual fact that was proved over and over again by the users of Pease furnaces in the winter just gone by, when we had the coldest February on record.

The Pease furnace not only gives more warmth throughout the whole house, but burns less coal and is far less trouble to handle.

"Pays for itself by the Coal it saves"
