

24 x 36 inches.

I should be pleased to have you look into this design and perfect it, and give it a trial, if you think it worthy of consideration; and should you desire further details, as they occur to me, I would be pleased to give them in so far as I can.

As an Ex Navy Officer, I should be pleased to see the United States lead the world in matters of this class, as well as in battleships.

(Signed) Geo. W. Robertson.
