GERMANY'S FOOD SUPPLY An importer of Holland writes to the North-western Miller about Germany's foodstuff sup-plies as follows: "In the newspapers I have seen we are told that Germany can help herself at least a year. My opinion is that they are thadly short already, and as a grain man I know he condition that existed before the war. Of all the tremendous quantities of North and South American grain Germany bought, nothing will away from starvation. For Germany the vital point within very little time will be how to get efforts in that direction. No one knows her wants better than grain men in Holland, for we are in exactly the same position as they are. I was shown a list yesterday containing the names of 78 steamers all with Germany for destination. Hamburg importers were making inquiries in regard to these, but of course none will get there. Merchants over there are deprived of any news. Their goods, for which they paid, have been seized, and absolute ruin is staring them in the face."

Winnipeg Livestock

Stockyard Receipts During the past week three have been received at the Union stockyards 3,715 cattle, 201 calves, 6,779 hogs and 368 sheep.

Cattle

Cattle The market situation in cattle during the past week has not materially altered. The market is sill very draggy and the outlook is not one which would warrant any change in prices for several count much of the stale cattle were cleared out, but the whole market situation is slow. Southern and Eastern markets report overstocking and that the only demand apparent at all is for the very choicest stock. Very little of this kind of be shippers before consigning their stock to market. The best steers this week have sold around 86 50 to \$6 6.6, choice heifers from \$5, 50 to \$5, 75 and best cows \$6 25 to \$5, 50. The deniard for feeders has been fairly good on the choice well bred kinds and these have sold around that the steers at \$5, 25 to \$5, 50. The deniard for feeders has been fairly good on the choice well bred kinds and these have sold around have been selling around 6 cents, with a few choice yearing steers at \$5, 25 to \$5, 75. Yearling heifers to sell, the majority selling for 5 cents. The self self self steers are a drug on the market at \$4, 25 to \$4, 50.

Hogs

Hogs The hog trade this week has taken quite a slump and the outlook at the present time is for a still lower market. The fact is that all the markets are overstocked and until a large falling off in shipments is experienced, so as to allow the market to clear up, prices will be low. Choice hogs are selling at \$7.50, sows \$6.00 and stags \$4.50. Pigs from 100 to 150 pounds \$6.50 to \$7.00.

Sheep There is no change in the sheep market, re-ceipts are decidedly light and quotations are uncertain.

Country Produce

Note.-Quotations are f.o.b. Winnipeg, except those for cream, which are f.o.b. point of shipment. Butter

No change in butter prices this week. The de-mand is good, but the supply is quite equal to present requirements. Fancy dairy sells for 23 cents per pound; No. 1 dairy 20 cents and round lots 17 to 18 cents. Eggs

Plenty of eggs are being received by local dealers to supply all needs. The quality is reported good. Eggs are selling for from 20 to 21 cents per dozen. Potatoes

No change is noticed in the potato market this week, prices holding at from 50 to 55 cents per bushel.

Poultry

Poultry There is a falling off all around in poultry prices this week due to the large supplies which are coming in. Farmers are weeding out their flocks at this time and as a consequence the market is, keeping well supplied. Dealers quote live hens at 9 to 10 cents, per pound, ducks 10 cents, old roosters 8 to 9 cents, turkeys 12 to 15 cents, and gresse 9 to 10 cents.

Milk and Cream

Milk and Cream There is no change at all in milk and cream prices this week. The supply is good for this time of the year and even if it does fall off dealers do not anticipate much raise in prices. The tightness of money has curtailed the purchasing power of buyers and hence there would be no sales were the price to be raised very materially. Sweet cream is worth 30 cents per pound, sour cream 24 cents and milk \$2.00 per 100 pounds.

Hay

Hay There has been a considerable change in the hay market during the past week. Large quanti-ties have been received and dealers state today that the market is glutted. The condition of the hay is fair, but the quantities at present on the market will more than supply the demand. Consequently prices are more than \$2.00 lower per ton. No. 1 Red Top sells for \$15, No. 2 \$10 to \$11.50; No. 1 Upland \$12, No. 2 \$10 to \$11.50; No. 1 Midland \$6 to \$8, No. 2 \$4 to \$7; No. 1 Timothy \$15 to \$16 and No. 2 \$14 to \$15.
