## The Farmer's Lawyer

Thousands of farmers become involved in law suits at some time during their lives and many of these law suits could be avoided if they were familiar with the simple facts of the law.

### The Canadian Lawyer

is the title of a book which has been prepared for the very purpose of giving farmers this information. It will not make a lawyer out of a farmer, but it will help to protect the farmers against the sharp practice of agents, or anyone else who would like to get him into a tight corner.

This book is just what the farmers of Western Canada have been looking for for some time. It gives the most important provisions of the laws of Canada and especially of Manitoba, Saskatchewan and Alberta. The information is given in simple every-day language, so that farmers will be able to do a great deal of their own business strictly in accordance with the law, without engaging the services of a lawyer and paying him from \$5 to \$10 each time for a little bit of ordinary advice.

Every farmer loses a lot of time, and more or less money, during the course of his career, because he is usually unacquainted with his legal rights and the proper method of redress. Half of the law-suits before the courts are brought about because some person was ignorant of a simple fact of law which he should have known. In addition to this most valuable information on the various laws, this book also gives definite information and simple but correct forms for the preparation of all kinds of legal documents that a farmer would have occasion to use.

Chattel mortgages and bills of sale are explained fully, how to make them, the law in regard to them, and when to use them. Similar information is given on checks, lien notes, land mortgages, promissary notes, receipts and wills.

This book also instructs farmers on exemption from seizure of debts; the law in regard to line fences; the law in regard to naturalization; the law of partnership; how to have inventions patented and protected; the use and form of powers of attorney; the law in regard to the succession duties; how to prepare land transfers under the Torrens system which is used in Western Canada; the law in regard to trust and trustees, and practically everything else that a farmer would require to study.

We sold hundreds of copies of this book last winter and those who purchased were well repaid for their study of the book.
