used for making type metal,
and other alloys.

WORKS OF GREENWOOD.
The New Court House—Mother
Lode Development.
WOOD, March 17.—Smith
contractors for the erection
of a 10,000 court house, for which
priorities was made last year
provincial legislature, resumed
the building this week. It
is to be completed in the year
before preliminary arrangements
prevented the completion of
the basement, so all outdoor
work is suspended until such time
as conditions would admit of
work being done. The severe
cold weather having passed,
men are back on the job, and
on good progress will be made
soon. Much of the timber
shaped indoors during the
winter, so that the contractors are mak-
ing start with much of the re-
material in shape for immediate
use. The court house will hardly be
through, until about the middle
of the year.

Killien, provincial inspector of
roads and bridges, came in on
his train. It is understood that
he is about completing the much
long road up as practicable.
Completion of that road has
been chief cause of the comparative
inactivity of the West Fork com-
munity claim owners could
not in necessary supplies nor ship
ments under considerable difficulty
to meet that they could not
if this road is finished early in
the summer it is probable that
promising mining properties up
the Fork now shut down will re-
development work and three or
four they may be expected to ship
the smelters.

Judge Leamy is here
settling of the county court. There
number of cases on the list, but
not of much public interest.
Mother Lode mine the work
of the main tunnel, through
most of the ore is hauled to the
ber, with the quarry nearly 200
feet well advanced, winze and
work being within about 80 feet
of the top. When this connection
has been made the sending of
ore from the top quarry to the
will be much expedited.

ROSSLAND WEEKLY MINER.

Per Year \$2.50.

ROSSLAND, B. C., THURSDAY, APRIL 2, 1903

Eighth Year, Number 23

THE OUTPUT KEEPS UP

Week's Work in Rossland Mines Was Fairly Satisfactory.

Renewal of Coke Supply Would Stimulate Operations.

Easily the most important event
of the week in the Rossland camp
was the discovery of ore on the 1050-foot level
of the Le Roi mine. Since the ore was
first encountered a couple of months
ago, the output has been steadily
increasing. It is generally regarded
as an extremely important event, al-
though the warning by S. F. Parrish,
general manager of the company, against
discounting the future is borne in mind.
Some weeks will be required to demon-
strate the magnitude of the discovery,
the fact being that the better the strata
the more time will be required to ex-
ploit it. Meantime Rosslanders gen-
erally derive great satisfaction from
the initial discovery that proves the much-
quoted theory that Rossland ore bodies
"go deep."

In the other mines of the camp, there
has been marked activity. The Le Roi
smelter at Northport has three furnaces
in operation, with coke secured from
West Superior, Wis., and Trail has one
big copper furnace running with coke
from the Comox collieries. This as-
sures the continuance of mining in the
camp on the usual scale and the promise
of enhanced activity when the supply
of coke is renewed. Locally the selling
prevails that the settlement of the labor
troubles at the coal mines will not long
be deferred, despite the setback received
by the peace negotiators this week. It
is felt here that the foreign element is
largely responsible for the delay en-
countered, and that further advances
will be achieved when the English-
speaking miners thoroughly grasp the
situation and assert themselves. The re-
stitution of a permanent and adequate
coke supply to the smelters will bring
about a very important improvement in
the direction of removing the feeling of
uncertainty from which this community
is suffering more than from any real
stringency.

The sharp thaw setting in toward the
end of the week will have an important
bearing on matters in the Rossland
camp. The passing of the snow means
that the Le Roi No. 2 company can com-
mence work on their concentrating mill,
the Spitzee company will be in a position
to commence the erection of the com-
pressor plant and headworks with
which the new program of development
and exploration mapped out for the
property can be undertaken, and the
operations at the Kootenay mine will be
materially expedited. When the thaw
has ceased and the surface water has
been drained off the Great Western
mine is to be unwatered, with a possi-
bility of mining operations being under-
taken on a considerable scale.

The shipments for the week from
Rossland mines show an improvement
over the previous week, largely due to
enhanced activity at the Centre Star
and War Eagle mines. Incidentally it
is worthy of mention that yesterday
practically concluded the first quarter of
the year, and that the average of shipments
for the first three months is shown to be
in excess of a thousand tons per day.
When this record is achieved under the
conditions that have existed and forms
a drawback on the activity of the big
mines, it seems reasonably safe to pre-
dict, barring unforeseen contingencies,
that the Golden City will steadily in-
crease its average output for the suc-
ceeding months of the year and that a
grand total not far short of 400,000 tons
of ore will be achieved before the close
of the current twelvemonth. Such a
record would only be a consistent im-
provement on the results accomplished
in 1902 and preceding years.

THE OUTPUT.

Week.	Year.
Le Roi	49,406
Centre Star	17,200
War Eagle	13,355
Giant	335
Velvet	2,066
Kootenay	225
Le Roi No. 2	5,469
Homestake	80
Totals	7170 90,046

AMONG THE MINES.

LE ROI.—As already stated, the event
of the week was the discovery of ore
on the 1050-foot level of the Le Roi. It
is being opened up steadily, and the
other work in the mine is proceeding
along conventional lines. The smelter has
blown in three furnaces, which is an ex-
cellent advance under existing circum-
stances in connection with the coke sup-
ply.

KOOTENAY.—More men have been
added to the force at the Kootenay mine
during the week and the rapid thawing
of the heavy snow in the vicinity of the
mine will expedite the surface work
which the company has in contempla-
tion. This consists principally of filling
the ore bins and storing extra ore on the
dumps pending the time when it will be
required for reduction purposes. Five
machines are breaking ore on the third
and fourth levels.

WHITE BEAR.—Drifting is still un-
der way on the 900-foot level on

IN EASTERN PROVINCES

Proposal to Establish a Copper Refinery at Montreal.

Ontario House Adjourns to Await Gamey In- vestigation.

MONTREAL, March 31.—The C. P.
R. has sent a letter to the city council
asking that the city cede to the com-
pany all the streets between Notre
Dame street and the river from the
Place Viger station to Kail, a distance
of about a mile, as they intend to ap-
propriate the land. It is understood that
the railway company already has op-
tions on most of this land.

TORONTO, March 31.—The Grand
Trunk station here was destroyed by
fire last night.

FRANKFORD, Ont., March 31.—Mrs.
Hayley, 73 years old, was burned to death
in bed. She was accustomed to smok-
ing, and it is supposed she went to bed
with a lighted pipe, which set the bed
clothes on fire.

KINGSTON, March 31.—J. L. Hay-
cock, leader of the Patrons of Industry
of Ontario, is seriously ill here with
pleuro-pneumonia.

WINNIPEG, March 31.—A special
cable to the witness says so many mem-
bers of the house of commons wish to
join Lord Lyveden's party to tour the
Dominion of Canada that Lord Lyveden
has been forced to announce that his
list is full, and that no more members
can be accepted.

WINNIPEG, March 31.—Today's nom-
inations of candidates for the legisla-
ture included Premier Roblin for Dufferin
constituency, Hon. J. D. Cameron,
Liberal, for South Winnipeg, and R. L.
Richardson as a Political Reform Union
candidate in Mountain against ex-Premier
Greenway.

TORONTO, March 31.—The Ontario
legislature today passed the Gibson bill
relating to the taking of evidence by
the Gamey commission. The opposition
made an attempt to secure the inclusion
of a provision that the judges should
not report any finding of fact, but mere-
ly report the evidence, leaving the verdict
to the jury. This was voted down by
the government majority of five, after
which the house adjourned.

Toronto, March 31.—The Globe's
special says that the Ontario govern-
ment has today passed a bill to increase
an unprecedented rate. For the
nine months ending today the revenue
shows a gain of \$3,106,621 over the same
period last year. For the month of
March the increase is \$347,788.

WINNIPEG, March 31.—The Cana-
dian Pacific Railway company's land
department sales for the month of
March, 1903, were 184,138 acres for \$782,
948. For the month of March, 1902, the
total was 101,069 acres for \$333,852. The
average price per acre in 1902 was \$3.30
per acre, and in 1903 \$4.25 per acre. The
Canadian Northwest Land company
sales for the past month were 24,789
acres for \$139,850.

OTTAWA, March 31.—The redistri-
bution bill which was presented to par-
liament today contains a provision to
refer the dividing up of counties into
constituencies to a special committee of
parliament. In a county where two
or three members will be returned the
question as to political boundaries
within the constituency will be referred
to this committee. This will greatly
facilitate the passing of the bill, and
will do much to remove opposition
which might otherwise arise. In the bill
of 1898, which was defeated by the
senate, there was a proposition to give
this work to a commission of judges.
A special committee of the house will
now do the work instead.

ST. JOHN, N. B., March 31.—The
first musical festival of the great circle
took place here tonight and was a
magnificent success in every way. Ar-
tistically it was very fine. The place
was crowded by the elite of the city,
who gave Sir Alexander Mackenzie a
triumphant ovation at the close of the
performance, which was joined in by
artists, chorus and orchestra.

MONTREAL, March 31.—Within the
next three months a plant will be es-
tablished either in Montreal or at
Shawinigan for the conversion of crude
blaw copper into refined copper, to be
followed by the establishment of exten-
sive works for the manufacture of the
free copper into sheets and tubes. J. E.
Hardman has just received a communi-
cation from C. K. Milbourne, a British
capitalist who was here last summer
looking out for a location site for a
plant which he is desirous of estab-
lishing in Canada for the refining of
copper by electrolysis. When in Mon-
treal last summer Mr. Milbourne was
in consultation with the heads of the
J. R. Wilson company, the James Rob-
ertson company, Sir Thomas Shaugh-
nessy and others with regard to works
that he proposes to establish. His idea
then was to bring the inventor of the
process out to Montreal and have the
plant manufactured here. He has,
however, since decided that it would be
profitable to have the plant construct-
ed in Glasgow, and it is now being
produced at the engineering works of
Watson, Laidlaw & Co., who will have
it ready in time for erection either in
Montreal or Shawinigan in June, Mr.

TO VISIT IRELAND.

Official Announcement of the Royal Intention.

Young Corbett Proves too Strong For Terry McGovern.

The Smaller Man Knock- ed Out in the 11th Round.

MECHANICS PAVILLION, San Francisco, March 31.—By 8:30 o'clock, when the contestants of the first pre- liminary entered the ring, the big amphi- theatre was packed with a cheering im- patient crowd. Outside a drizzling rain was falling, but this did not dampen the enthusiasm of the crowd, which stretched for half a block on either side of the door and even blocked the streets in front. It was estimated at that time that nearly 11,000 people were inside the hall, the biggest crowd that ever saw a fight in San Francisco. Reports from McGovern's and Corbett's headquarters were equally bright. Both men had rested quietly after weighing in this afternoon, and expressed absolute con- fidence in the outcome. The first pre- liminary was a ten round fight between "Dixie Kid," a colored welterweight from Los Angeles, and Eddie Cain, of Brooklyn, McGovern's sparring partner. "Dixie Kid" won in the second round with a right to the jaw. Cain was not out, but when he went down he turned his ankle badly and was unable to get up. The sprain was a bad one, and it was necessary to carry Cain from the ring.

BRITAIN'S REVENUE.

Substantial Increase in Receipts for the Past Year.

LONDON, March 31.—The principal
increases in the national revenue for
the past year were: Property and in-
come taxes, \$20,000,000; customs duties,
\$17,324,225; excise duties, \$3,101,340;
stamps, \$2,000,000; postoffice receipts,
\$2,250,000. The leading decreases were:
Estate duties, \$2,163,356; miscellaneous,
\$823,335. The net increase of revenue
over the previous year was thus \$42,-
990,715.

The total paid into the exchequer was
\$767,758,490, the balance of the revenue
being paid to local taxation accounts.
The net increase in the exchequer re-
ceipts for the previous year was \$42,-
768,496. Last April the chancellor of the
exchequer estimated the revenue of the
local tax collections, at \$760,735,000. The
returns for the closing quarter show
an increase over those of the previous
year.

BAGGAGE ATTACHED.

New York Dealer's Suit Against the Duke of Manchester.

NEW YORK, March 31.—A writ of
attachment, to cover an alleged debt
of \$225, was served against the 25 pieces
of baggage belonging to the Duke and
Duchess of Manchester, who recently
arrived from Palm Beach. The writ
was secured by a Fifth Avenue firm of
dealers in antiques, who alleges that
some months ago the duke purchased
from them a brass ornament in the
form of a shield, giving in payment his
check for \$45 on a London bank, which
was subsequently returned marked "no
funds." A similar attachment was
served by a local firm of jewelers on
the occasion of the last visit of the
duke and duchess to New York.

OUT OF BUSINESS.

Benedict Turf Company Suddenly Ceases Operations.

SOUTH BEND, Ind., March 31.—The
Benedict Turf and Commission com-
pany, established many years ago by
John W. Benedict, who was later suc-
ceeded by Walter Curtis, has suddenly
ceased operations. The company oper-
ated in Chicago until recently, when,
after paying back about \$240,000 dur-
ing a run, it removed to this city. The
proprietors have left town, but before
they left they sent out a circular to hun-
dreds of investors stating that the latter
will lose nothing. They carried nearly
half a million dollars of business, and
practically all that is left is said to be
horses valued at one hundred thousand
dollars now at the Memphis track.

HUNGRY DENVERITES.

Luncheon Was Missed Because Cooks and Waiters Struck.

DENVER, Col., March 31.—All union
cooks and waiters in downtown restau-
rants went on strike yesterday in con-
sequence of a disagreement between the
unions and the restaurant keepers' as-
sociation. The trouble arose over the
employment of non-union cooks in two
restaurants belonging to the association.
Many restaurants were closed at the
noon hour, forcing thousands of people
to go without luncheon. At least 20,-
000 people will be inconvenienced if the
strike is not quickly ended.

THE SULLIVAN COMPANY.

Meeting to be Held in Connection with the Bond Issue.

SPOKANE, March 31.—The Sullivan
Group Mining company will have a
meeting here April 11th to authorize
the issue of \$250,000 in 8 per cent bonds
to take up the company's debts of \$100,-
000 and give funds to carry on con-
struction of the company's smelter at Marys-
ville, B. C.

THE FRENCH VIEW.

PARIS, March 31.—The Journal des
Debats has a two-column leader on re-
cent incidents, which the paper claims
show German-American estrangement.

METAL MARKETS.

LONDON, March 31.—Lead £13 1/2. 3d.
NEW YORK, March 31.—Amalgam-
ated copper 66 3/4.

LIGHTWEIGHT CHAMPION

Young Corbett Proves too Strong For Terry McGovern.

The Smaller Man Knock- ed Out in the 11th Round.

Round Two—McGovern rushed like a
bull. In an instant Corbett's eye
open, but Corbett put a right uppercut
twice to Terry's chin. They exchanged
rights to jaw. McGovern blocked a
right hook and put left to ear. As they
got together Corbett put right to jaw.
McGovern went down and half way
through the ropes for a seven-second
count. Both showed effects of the fur-
ious milling as they took their corners.
Round Three—Corbett put five
straight lefts to Terry's mouth. He re-
peated it and then put right hard to
ribs. In the clinch that followed Mc-
Govern put right and left to head.
Corbett swung right to jaw and upper-
cut right to stomach and chin. Cor-
bett, if anything, seemed the stronger.

Round Four—Corbett put two lefts
to nose and hooked one to jaw, get-
ting a right in stomach as a return.
They exchanged left jabs to face. Cor-
bett hooked left to eye. McGovern
kept coming, but got into a clinch.
Both were tired. Corbett's mouth was
bleeding as he took his corner.

Round Five—Corbett missed a right
hook and got three lefts on the ribs.
A clinch and Corbett jabbed three lefts
to McGovern's mouth. Terry rushed
and planted two rights to Corbett's
stomach, getting right hook on the jaw.
Terry blocked a right uppercut. Mc-
Govern missed a right swing, nearly
sending Corbett through the ropes. Mc-
Govern swung right on nose. Corbett
put hard left to mouth. He missed the
next one. McGovern put in two rights
to stomach. This was decidedly Mc-
Govern's round.

Round Six—Corbett jabbed two lefts
to head, and poked right to stomach.
McGovern put right to kidneys. Corbett
swung right to ear. Corbett swung a
hard right to kidney and got two in the
same place. Corbett brot ground, and
rushed a moment later and put left
to stomach. McGovern put right to ribs
and got a left in mouth. McGovern
showed the effects of the terrific pace.

Round Seven—Terry hooked left left
to jaw, but got hard blow in the mouth
and right in ribs. Corbett put left to
eye and mouth. Corbett put a hard
right in Terry's stomach. Grady had
difficulty in separating them. Corbett
swung right to jaw. Terry was in dis-
tress. McGovern slipped down and took
a count of 9 seconds. The crowd hooted.
McGovern put in two hard rights to
ribs.

Round Eight—They rushed into a
clinch. McGovern put two rights to
stomach. They were low, and Corbett's
seconds claimed foul. McGovern swung
right to chest. Corbett put a right to
the jaw. His left found its mark on the
jaw. Terry's right went to Corbett's
kidneys twice. Corbett hooked right
to jaw three times.

Round Nine—Corbett warned Terry,
not to hit so low. Corbett hooked right
under his belt. It struck Terry, and he
rushed but did not land. Corbett put
a right to ribs. Getting McGovern in
his own corner, Corbett hooked left chest
and put two hard rights in return. Cor-
bett uppercut right to ribs and got
right to jaw and ribs in exchange. Mc-
Govern forced, but Corbett coolly re-
treated, then came in like a flash with
a right uppercut.

Round Ten—Terry rushed and put
right to jaw and ribs. Corbett upper-
cut and put right to chin and right to
stomach in the clinch. Corbett put
right uppercut to jaw, straightening
McGovern up. Terry got two lefts to
the kidneys and clinched.

Round Eleven—The men went into a
clinch immediately. Corbett missed a
left hook and got a hard left on ear.
He uppercut heavily with right to
stomach. Terry forced, but Corbett
ducked his left and sent in a terrific
right to ribs and a moment later a left
to jaw. Corbett put a left to jaw, and
Terry was nearly out. Corbett swung
McGovern's distress rushed and getting
McGovern in a corner swung right and
left to jaw. Terry's knees wobbled
and his head swung. He steadied him-
self and swung right to Corbett. Corbett
landed a stiff one on jaw and the
Brooklyn fighter went slowly on his
back. As the timekeeper called seven
he attempted to get to his feet, but he
was unable. Referee Graney swung
his hands in the air as a signal that
the fight was over.

MARCONI'S STATEMENT.

Attributes Criticisms to Cable Com- panies' Influence.

LONDON, March 31.—At the annual
meeting of the Marconi company today
Signor Marconi said he attributed the
criticism of his system chiefly to the
"cable companies and sections of the
English press controlled by the cable
companies." He announced that Lord
Kelvin, Lord Rayleigh and Prof. C. A.
Fleming, professor of engineering in
University college, London, were
shortly going to Poldu, Cornwall, at his
invitation to examine his transatlantic
wireless system of telegraphy.

POETIC JUSTICE.

The Wolves Unconsciously Selected the Proper Victim.

ST. PETERSBURG, March 31.—A
man and his wife who left their native
village near Vitebsk a few days ago to
have their baby baptized at the nearest
church were set upon by 12 wolves. The
man ordered his wife to throw the
baby to the wolves. She refused and
he attempted to tear the child from her
arms. In the scuffle the mother fell out
of the sleigh with the baby and they
rolled unprotected by the wolves into a
ditch. The wolves kept up the pursuit
and overtook and devoured the man
and the horses.

WANTS A DUEL.

PARIS, March 31.—The Patrie says
the brother of Emma Tourret, who yester-
day fired two shots at Marciel Pre-
vost, the well known novelist, has sent
him seconds to M. Prevost.
Marciel Prevost and the brother of
Emma Tourret will fight a duel with
swords tomorrow morning.
