SATELLITE

"The splendid traditions of Canadian valor" has a fine, chest-filling roll to it.

I don't know whether a telephone girl has a good calling or not, but she has lots of it.

They say that only animals have fore paws yet I am told there is Forepaugh's circus.

The title of the new serial will be, the graft of the grafter or who sold the boots to the city.

There is all that trouble over the Emma street sewer and John Edmondson isn't in the council.

George Perrin—Don't you let the bath people see you taking it or they will make you put it back.

With laundry rates cut and the bath house now open, even a newspaper man can try to keep clean.

We had just begun to see the ludicrous straw hat, rippling in the market when that snow storm came.

In the matter of fires, there is something real even about a false alarm. It is used to carry the hose.

This is inexplicable. The Attorney-General hasn't yet consulted me re the appointment of the Crown Attorney.

If an alderman wanted to sell a little dinky-donkey boot-bill to the city, why didn't he stay out of the City Council?

I really believe there are certain lines of work for which I am peculiarly adapted, but I haven't yet found out what they are.

'Tis said that because it rained on Easter Sunday that it will rain for seven Sundays. If it's going to rain, why should we call them Sunday?

Fred Brisco (after a visit to the mineral baths)—Well, that is so nice, I am going to take a mineral bath once a year, whether I need it or not.

That man 102 years old who drinks half a pint of whiskey had better watch out, or the prohibitionists will be holding him up as an example of intemperance.

If that little winter we have had for the past two months, has got lost and strayed into spring, I hope somebody will find it and send it about its business.

This G. H. J. is a firm advocate of clean money. Any person having dirty bills can get rid of them by passing them in over the subscription counter of this office.

Something is the matter. Ex-Ald. Liddy has not said anything against the Lake Erie R. R. for nearly two months. Did the worthy ex-alderman give up something during Lent?

Those men lounging on the north side of King street opposite the market are not loafers. They are lee harvesters and their season of work is passed.

Doesn't an alderman exhibit poor taste who takes advantage of his civic position to sell shoes to the city? He would show consideration if he would permit other shoe merchants of the city to fill such orders.

A friend of mine lost a dog the other day and was remarking on how much the animal was missed. A girl I know spoke up and said, "I have an old ginger cat, and if it should die, I know I'd miss it because I would have nothing to fall over in the dark."

I move, if I can get a second, that "Hart's River" and "Paardburg" be worked out in flowers at the point of Tecumseh park, just below the cannon, to commemorate the brave boys who fell in action at those places and the Maple City's share in the glory and the sadness thereof.

I was coming out of the post office the other day with Johnnie Carter. The door was ajar so there is no wonder that it slammed back jarring Johnnie. "Kind of jarred you, Johnnie, didn't it?" said I in my blaziest manner. "Yes," replied Johnnie, "but I have been jarred so often that it's a wonder I am not preserves."

The Duke of Wellington said that the battle of Waterloo was won on the fields of Rugby and I guess that the battle of Hart's River was won on the Detroit Football Field. Evans won that game and he also won the game at Hart's River.

The Saturday Globe printed a picture of a man 102 years old, who drinks half a pint of whiskey every morning, and reads the Globe. Yes, he's Scotch. His age tells that; but the point that wasn't made quite clear was whether the man required the whiskey before he could stand the Globe or the reading of the Globe created a thirst that only a half pint of whiskey would quench. Some people are born lucky.

IMMORTAL.
Any man who could live to 102 and read the Globe, let alone the Whiskey, must be made of adamant.

Sad will be the day for any man when he becomes absolutely contented with the life he is living, and the deeds that he is doing, when there is no forever beating at the doors of his soul some great desire to do something larger which he knows that he was meant and made to do because he is a child of God.—Phillips Brooks.

Perfect Health

Is within the reach of almost every woman. The weakness, nervousness and irritability from which so many women suffer is in general due to disease of the delicate womanly organism. When the disease is cured the general health is re-established.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well. It promotes regularity, dries disagreeable and enfeebling drains, heals inflammation and ulceration and cures female weakness. When these diseases are cured, headache, backache, nervousness and weakness are cured also. "I was very weak and nervous when I commenced taking Dr. Pierce's Favorite Prescription and Golden Medical Discovery, about a year ago," writes Mrs. M. E. Kewitt, of 89 Oxford Street, Woodstock, Ont. "I had been suffering for seven long months, and had taken medicine from a physician all the time, but it seemed to make me feel much worse. My stomach was so bad (so my doctor told me), and my nerves were in such a state that I would start at the least noise. I felt irritable at all times; was not able to do any of my own house work; had to keep help all the time. Now I feel like a new woman, and I am all owing to Dr. Pierce's medicines."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Theatrical

Chas. H. Yale and Sidney R. Ellis' great big spectacular attraction, "The Evil Eye," requires over sixty people, tons of scenery and other paraphernalia, hundreds of costumes and special cars to transport it over the country. The mechanical effects are elaborate and intricate and without a doubt, the most novel that have ever been presented in a theatrical performance.

The number of stage mechanics carried with "The Evil Eye" are just double that of any other big production, as it requires more than the usual quota of stage hands to properly handle the ponderous machinery used in the presentation of the human windmill, the rotating rooms and the new effect, "the break-away."

A funny incident occurred in the engaging of a new mechanic for the present season, who after a week's experience, notified the management that he desired to close his engagement. On being asked his reason for so doing, he replied, "I thought I came to work to assist in handling 'The Evil Eye,' but with what I have been compelled to handle and lift, I'd as leave work in a steel, brass and iron foundry."

He was permitted to close his engagement but the title he gave "The Evil Eye" has since that time been known to its stage mechanics as "Yale & Ellis' Steele, Brass & Iron Foundry."

The principal members of Chas. H. Yale and Sidney R. Ellis' spectacle "The Evil Eye" are, Miss Mayme Mayo, the cleverest of singing and dancing comedians; Chas. A. Loder, the celebrated German comedian; Miss Emilie Benner, a phenomenal contralto; Miss Madeline Lowrie, Bertha Elise, May Coogan, John L. Guilmette, Geo. W. Kerr, Geo. Herman and the brothers Kennard. These clever artists, combined with the pretty corps de ballet, the augmented chorus, the Victoria troupe of Royal English singers and dancers, Armstrong's marvelous electric ballet and the hundred other mechanical features, go toward making the production of "The Evil Eye" absolutely the best yet offered.

This production is offered at the Grand for Monday, April 14th.

Chatham is about the only town in Canada where the concert course is being completed. London, Ottawa, Hamilton, St. Thomas, Woodstock and all the others are thrown in the air by the collapse of the Great Eastern Lyceum Bureau, and Chatham would have been if Mr. Cairns had not gone out after talent himself. The Jessie MacLachlan number was an instance of this. He tried to get Grossmith but he wanted \$200.

"It gives me great pleasure to write you and congratulate you on having put upon the market such a valuable medicine in a minute form. It has done me so much good that as soon as one box is gone I purchase another. I have been somewhat constipated and my liver has been out of order, but Iron-Ox Tablets have put my whole system right."

OUTSIDE MARKETS.

HENRY CLEWS' REPORT.
Henry Clews, in his weekly report to The Planet, says:—

The financial situation is sound and generally satisfactory. Desirable investments are in very good demand and exceedingly scarce, even at present high level. Hence, first-class railroad securities are held with tenacious firmness, which seems to grow with the continued and wholly unexpectedly favorable railroad earnings. In the money market there is little change. There is no scarcity of funds for good borrowers, but rates are steady and likely to remain so until the reserves begin to grow. The apprehension of gold shipments still hangs over the market, but there is no fear of the money situation being disturbed thereby, as any gold shipments will be doubly offset by the return of funds from interior points to this centre from this time forth until we get back all the money sent forth for crop-moving purposes last fall, and this will remain here until the next crop movement, which will be about the middle of next August. Meanwhile money will gradually grow easier and rates lower, and the stock market cannot fail to be stimulated by pléthoric money, as it will furnish facilities to operators to carry stock on easy terms throughout the summer months. I look for more activity in the stock market and a higher range of prices generally in the immediate future.
