

Nervous?

There are many causes of nervousness, but poor blood heads the list. The doctors call it anemia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after.

wedding feast given by Hector and
Mrs. Foster, wealthy farmers of
Osgood Township, near Caledonia, a
great quantity of chicken cooked in
copper pots and served with gelatine,
was eaten. Soon after Mr. Foster's
mother and Mrs. (Rev.) Ferguson died

Regina, Sask., Oct. 20.—Magyar, the
Hungarian, who was convicted of mur-
dering his employer, a farmer, this
spring, was refused a new trial by the
court yesterday, and will hang on Nov.
29. The Hungarians of Winnipeg got
up a big petition for a new trial, claim-
ing that he killed the farmer in self-
defence. The court failed to see it in
that light.

Cuts Throat With Lamp.

120 Mile Gale Leaves Death
And Destruction In
Its Wake

WIND SWEEP OVER CUBA

Havana, Oct. 23.—A cyclone of un-
precedented severity, accompanied by
a terrific downpour of rain, swept over
the Provinces of Havana and Pinar
del Rio Wednesday night and result-
ed in 20 deaths in this city and the
serious injury of a dozen or more per-
sons.

The damage is estimated at \$2,000-
000.
The dead are all Cubans of the poor
or class.

Buildings Badly Damaged.
In Havana City the buildings of the
University of Havana sustained dam-
ages amounting to many thousands of
dollars. A partition wall in the Ameri-
can legation was blown down. The of-
fice furnished with the ruins and the
books and records of the legation were
wet through.

The light wooden structures over
the sea baths at Vedado were badly
wrecked.

The great unoccupied brick building
covering the old United Railroad
wharf near La Roca was demolished.

Many Dead and Injured.
New York, Oct. 20.—Advices re-
ceived here by the Western Union
from Havana state that 19 persons are
known to be dead and many others
were injured by the storm.

Much property was destroyed and
the Prado and other parks were de-
vastated. All traffic in the city was
suspended, as a result of the storm.
All American sailors and soldiers are
reported to be safe.

Brooklyn Dragged Her Anchor.
The United States cruiser Brooklyn
dragged her anchors at the height of
the hurricane and touched bottom, but
got off without damage.

The other warships, the Minneapolis,
the Texas, the Denver and the Prairie
rode out of the gale safely. More than
one thousand tents at Camp Columbia
were blown down and the barracks un-
roofed. One trooper had his shoulder
broken.

Wind 120 Miles An Hour.
The storm began with heavy wind
and rain. About 6 o'clock in the morn-
ing it rapidly increased in violence
and at noon was at its height, the
wind blowing 80 miles an hour. The
city streets were like rivers. Stores
were flooded and there was two feet
of water in the cable office.

After noon the wind blew at times
at the rate of 120 miles an hour.
35 Lighters Sunk.
The greatest material loss was in the
harbor when 35 lighters were sunk.
Many of these were loaded with valu-
able merchandise. Nineteen of them
belonged to the Ward Line of New
York.

All trains to the interior were dis-
continued.
Finar del Rio was the centre of the
storm. Extensive damage is reported
to crops in that province.

100 Miami Houses Wrecked.
A conductor who has arrived at
Fort Pierce from Miami reports that
one hundred houses at Miami were
wrecked by the storm.

The Episcopal Church and the Meth-
odist Episcopal Church were blown
down. The concrete jail is leaning.
The roof was blown off the P. & O.
warehouse. The car shed was blown
down.

100 Reported Dead.
A special cablegram to The Evening
Telegram says: Over one hundred are
dead from the worst cyclone which
has ever visited Havana. Ninety-four
of the fatalities are confined to na-
tives, while 16 foreign residents are
reported killed.

Buildings Shaken.
When the tempest reached its
height buildings were shaken as with
an earthquake, street cars were wash-
ed from their tracks, windows were
blown in like paper and roofs and
doors swept away.

Several of the smaller frame houses
were blown from their foundations
and were wrecked. These were situ-
ated in the poorer district and were the
cause of so many deaths among the
natives.

Weather Prophet Saved Lives.
It is estimated that the loss of life
and damage would have been greater
had it not been for the timely warn-
ing given by Father Love at Gunciti.
He is a noted weather observer of
Berlin College.

He telephoned to Columbia Camp
at 7.30, one hour before the storm de-
cended, that a cyclone was coming,
and his warning was immediately heed-
ed.

Dutch Steamer Lost.
San Juan, Porto Rico, Oct. 20.—The
Red line steamer Philadelphia, from
La Guaira, Venezuela, for New York,
arrived here yesterday 48 hours late.
Her captain reports that a Dutch
steamer was lost in the cyclone, be-
tween Curacao and Liguacala.

The Philadelphia encountered the
cyclone upon leaving the harbor of
La Guaira on Monday. She was blown
ashore and slightly damaged. This
and the heavy weather accounted for
her delay in reaching here.

20 Miles of Railway Destroyed.
Twenty miles of the railway con-
necting La Guaira with Caracas has
been totally destroyed by the storm,
according to officers and passengers
of the Philadelphia. The Philadelphia
left here for New York yesterday af-
ternoon.

Damage Along Florida Coast.
New York, Oct. 20.—Communication
with Miami, Florida, has been restored
by the Western Union. Miami reports
that the hurricane struck the coast
there at 6 o'clock Wednesday morning.
The trainshed at Miami were badly
damaged. The Methodist Church and
a number of houses were unroofed.

CURE SICK HEADACHE.

St. Lucie, Captain Bravo commanding,
has sunk off the Florida coast.

One of the extension steamers ar-
rived in port last night, bringing sixty
wounded, who were taken to the hospi-
tal, and it is said there are twenty-
eight dead bodies, which will be
brought up to-day.

Captain Bravo says that he anchored
on the leeward side of Elliott Key,
twenty-five miles south of Miami,
Thursday morning, and that soon after
a tidal wave engulfed the island.

He says there were 250 residents on
the island, all of whom were lost.

The St. Lucie was crushed by the
same wave, and of the hundred per-
sons on board twenty-five were killed.
Captain Bravo was seriously injured.

A large containing 100 persons is
said to have been torn away from its
moorings at Elliott Key and after-
wards picked up near the Bahamas
Islands, fifty of her passengers being
reported drowned.

It is believed now that a portion of
the Florida Fish & Produce Co.'s fleet
was destroyed and Manager Adams
sent out one of their boats yesterday
morning to look for the men and
boats. On returning they reported no
signs of the fleet.

GOVERNMENT HELPS THE CITY.

Windsor Gets Whip Hand Over the
Ferry Company.

Windsor, Oct. 20.—It was found four
months ago that the Detroit, Belle Isle
& Windsor Ferry Co. was quietly try-
ing to secure from the Dominion Gov-
ernment a ten-year extension of its
franchise in Windsor, which expires in
two years.

Through its own carelessness Wind-
sor had lost the control of this fran-
chise, but the city was yesterday not-
ified that the Government had decided
to put the matter of a renewal in the
city's hands, and that if the Ferry
Co. does not concede all fair demands
the Government will ask for tenders
for a new company to supply the ser-
vice.

He Drew the Line.
Mr. Cribbs—Mr. Cribbs, I have
borne with resignation—nay, even
cheerfulness—antique chairs that wab-
bled, antique clocks that were always
thirteen hours behind time, antique
rugs that some prehistoric Turk wove,
antique chint, antique bowls, pans and
kettles. All this I have smiled at;
but when you give me antique eggs for
breakfast, I draw the line, madam—I
draw the line.

A Trite Saying.

It is a trite saying that no man is
stronger than his stomach. Dr. Pierce's
Golden Medical Discovery strengthens
the stomach—puts it in shape to make
pure, rich blood—helps the liver and
kidneys to expel the poisons from the
body and thus cures both liver and kid-
ney troubles. If you take this natural
blood purifier and tonic, you will assist
your system in manufacturing each day
a pint of rich, red blood, that is invig-
orating to the brain, nerves and mus-
cles, and which is the life-giving blood
of the body. It is often found in the
face or on the skin, the face or
the body, and the feelings "blue."
Dr. Pierce's "Discovery" cures all blood
and humors as well as being a tonic,
makes one vigorous, strong and forceful,
and is the only medicine put up for sale
throughout the world for the purpose of
restoring the system to its normal state.
It is a powerful blood purifier, and cures
all blood troubles. It is a powerful
nerve tonic, and cures all nerve troubles.
It is a powerful general tonic, and cures
all general debility. It is a powerful
kidney tonic, and cures all kidney troubles.
It is a powerful restorative, and cures
all the ailments which result from weak
kidneys.

Ontario Bank Officials Are
Arraigned In
Court

REMANDED FOR A WEEK

Toronto, Oct. 20.—The preliminaries
in the criminal proceedings arising out
of the collapse of the Ontario Bank
only occupied the attention of the Po-
lice Court for about ten minutes yester-
day morning. Both Chas. McGill
and G. R. Cockburn were remanded
for one week.

Mr. Cockburn, who is charged with
signing the statements Mr. McGill is
charged with preparing, stood near
his fellow-defendant in court yester-
day, but they did not speak as they
passed by. The temperature between
them was several degrees below nor-
mal.

McGill Did Not Plead Or Elect.
The first defendant called was the
late general manager, Col. Denison
read the indictment, which alleged
that the defendant, "being the gen-
eral manager of the Ontario Bank, a
body corporate, did make statements
and returns to the Minister of Finance
and Receiver-General, known by him,
Charles McGill, to wit, in material
particulars, to wit, in the information
returned and shown under the heading
of "current loans in Canada," the
amounts there shown being in excess
of the true amount of about one mil-
lion dollars, with intent to deceive the
shareholders and creditors of the said
bank."

Mr. E. F. B. Johnston asked for a
week's remand. "I do not know the
particulars," he said, "and desire time
to examine into the case." Mr. James
Bicknell, who assumed Crown Attorney
Corley, added that the prosecution was
not yet ready. The magistrate set
October 26th as the date for the next
appearance of the defendant.

Mr. Cockburn Pleads "Not Guilty."
"What about Mr. Cockburn," en-
quired his Worship.

The president of the defunct bank
had been sitting at the lawyers' table
with his counsel, Mr. Frank Arnold,
K.C., and immediately rose, while Col.
Denison read the charge that he "will-
fully made false monthly returns to
the Minister of Finance and Receiver-
General under the provisions of the
Bank Act, 1890."

"We are ready to go on to-day,"
said Mr. Arnold, "if the Crown is pre-
pared."

Mr. Bicknell replied that the case
would have to stand over with the
other, and the counsel for the defence
announced, "Well, Mr. Cockburn
pleads not guilty."

Mr. Cockburn left immediately in
company with his counsel; the magis-
trate renewed Charles McGill's bail of
\$50,000.

James Bicknell, K.C., represented
the Bankers' Association during the
proceedings. Crown Attorney Corley
and County Crown Attorney Drayton
represented the Crown.

Law For Insurance Men.

New York, Oct. 20.—One day's ob-
servation of the active campaign
methods of the New York Life Insur-
ance Co. resulted last night in a de-
mand from the International Policy-
holders' committee that Otto Kelsey,
superintendent of insurance, in-
stitute immediate proceedings against
all the leading officers of that company
for flagrant violations of the New
York Life Insurance Co. of section 94
of the Insurance Law. Officers of the
New York Life entered a general de-
nial of the charges.

Ballot Stuffer Scott Free.
Regina, Oct. 20.—Sinclair, the self-
confessed ballot stuffer, is let off scot-
free by the decision of the court on
banc last evening. A technical objec-
tion was supported.

This decision on the controverted
elections appeal, on which all the
Saskatchewan election petitions are in-
volved, numbering two-thirds of the
sitting members, is held over till Mon-
day next.

Bishop Potter's Daughter Suicides.

Cromwell, Conn., Oct. 20.—It was
stated here yesterday that Mrs. Laura
Cowan, daughter of Bishop Henry C.
Potter of New York, committed suicide
by hanging at a private sanitarium
here Tuesday night. Mrs. Cowan
was 44 years of age, and was the
wife of Winthrop Cowan. The body
was forwarded to New York.

Lumber Prices Boom.

Edmonton, Oct. 20.—An increase of
lumber from ten to twenty per cent
has been announced. This will apply
to the entire prairie provinces, and
comes as a severe shock at a time
when the demand for building material
is so general.

Must Emigrate or Die.
London, Oct. 20.—(C. A. P.)—The
Mail's special commissioner describes
the terrible poverty of fishermen of the
Island of Lewis. Many have emigrated
to Canada, and Galloway West, M. P.,
says that hundreds more must do so
or die.

Thousands Leave Britain.
London, Oct. 20.—(C. A. P.)—Some
102,250 persons, during the nine months
of this year, sailed for Canada
against 73,803 in the corresponding
period last year; 117,648 sailed to the
United States this year.

Three More Battleships.
London, Oct. 20.—(C. A. P.)—The
success of the trials of the British bat-
tleship Dreadnought has led the ad-
miralty to give orders for the construc-
tion without delay of three other such
vessels.

Everybody is wearing suede gloves

Watford's Wordsworth.
Watford, the prettiest village of the
Western Ontario plains, domestic
poet, not unknown to local fame, but
until now unrecognized by metropolitan
eyes, says The Toronto World. His
name, in the language of the good folk
of his parsonage, better known, is Dad
Williams, but, with a winning modesty,
he merges his rugged personality in the
Co. part of Harris & Co., the publish-
ers of that compendium of household
rural knowledge, yclept Watford Guide-
Advocate.

Dad Williams is a remote Galsworthy,
or Blincoe Glynn, or The Khan. Like his
city prototypes, he writes things now
and again that won't scan, but they,
nevertheless, see the light of printers'
inks. Take, for example, the following,
dedicated to "Pippins," much sought
after in Watford:

He sat down be-cider
As they went to press,
She slipped on the peelings
And the evaporator.

Purely bucolic, and somewhat strain-
ed, but bearing the marks of native
talent untrained. The pun on the last
word is atrocious, as all puns should
be, but it fetches the public.
