Light for the Eyes. Light for the Eyes.

Our grandfathers, who were obliged to read their weekly papers by candle light, escaped many of the eye troubles which are common among their descendants, who use electric lamps and incandescent gas mantles. It is the ultraviolet rays in our brilliant lights that are truly as a coulists. By Tersien has the control of the control let rays in our brilliant lights that are at fault, say oculists. Dr. Terrien has found that the arc light contains three times as many of the objectionable rays as the Edison lamp, four times as many as the ordinary gas light, or the petroleum lamp, six times as many as the oid-fashioned oil lamp and indefigitely more than candle light, which is almost free from ultraviolet rays. The mercury vapor lamp glass shades of a greenish-yellow tint to filter out the dangerous rays.

It is also never too early to mend.

HAVE OUTING.

Fresh Air Picnic Yesterday Was a Great Success.

The Tatlers' Fresh Air Outing at Oaklands Park yesterday proved a great success and the orphans and old people who were present will remember it for some time. The children were in good spirits and out for fun, and by the expuessions on every side it was evident that they enjoyed themselves.

The success of the outing reflects great credit upon Miss Kate Wittshire for her untiring efforts. She had not only arranged transportation, but also took along lats and balls and the children were only arranged transportation, but also took along lats and balls and the children were about 53 from the House of Refuge; 34 from the Aged Women's Home and Orphans' Asylm; 35 from the House of Refuge; 34 from the Aged Women's Home and Orphans' Asylm; 35 from the Day Nursery; and a large number of others, making alto gether about 900 people.

Street care, bedeeked with bauners and brightly trimmed, took the party as far as the ferry Company conveyed them across the bay. Both the Street Rail way Company and Ferry Company gave the services free.

Upon arriving at Oaklands the young sters had a splendid opportunity to romp about and they were not slow to to make the day enjoyable.

Council Must Submit Repealing By-law Next January.

Toronto, Aug. 27—The electors of the village of Grimsby are to have another opportunity of declaring their will in respect of local option, according to the decision of Chief Justice Mulock, handed down yesterday at Osgoode Hall in the action of Van Dyke vs. Grimsby. The motion was for an order declaring invalid the proceedings taken to submit a repealing local option by-law, and directing the village Council to submit another repealing by-law at the next annual election for members of the municipal Council. This case is very similar to that of Owen Sound.

In the fact that the voting took place more than five weeks after the first publication was as ubmitted within the proceedings taken to submit a repealing council. This case is very similar to that of Owen Sound.

In the fact that the voting took place more than five weeks after the first publication of the notice of the repealing by-law. The Council passed, would never become a valid and effective repealing by-law. The Council passed a local option by-law in 1906, which is still in force. On the 29th October, 1908, a petition was presented for a repealing by-law, to be submitted to the electors, but when the vote was taken the number of votes cast in favor of repeal was not sufficient to justify the Council in passing the repealing by-law, and no further action has been taken. On the 19th April, 1909, a petition was presented for another repealing by-law and no further action has been taken. On the 19th April, 1909, a petition was presented for another repealing by-law and no further action has been taken. On the 19th April, 1909, a petition was presented for another repealing by-law, no mandatory order is necessary; otherwise he is entitled to have such a by-law submitted at the next annual incomplete the manicipal council to disregard the wishes of the people. Magistrate Says He is Tied by Higher Courts.

Toronto, Aug. 27 .- Unless the law is soon amended it looks as if the most important result of the police raid on the handbook men will be to enormously increase street betting. Out of five charges tried in the Police Court yesterday four were dismissed, wholly or in part, because the bets had been made on the street.

The only conviction made was in the case of Abe Levinsky, who keeps a pool room and cigar store at 273 Queen street west. Levinsky gave notice of

appeal.
The discharged men are John and Fred Allison, of 20 Queen street east; Geo. Doherty, of 946 Queen street east; Wm. Watts, a butcher, of St. Lawrence market, and Frank Burrows, of 103-7 Victoria street.

The unsutisfactory state of the law

in regard to betting was first shown in the dismissal of the charge against John and Fred Allison on the ground that the bets they took were on the street in-stead of their store. Uperators Hart and Twitty, of the Thiel Detective Agency, had both place-bets with the men, but His Worshin said: "In the face of decisions of the higher courts this case will have to be higher courts this case will have to be dismissed. I can do nothing, for it has been held that the street is not a place." In the Levinsky case, Operator Hart told of placing one bet, and Operator Hendry of placing three bets with Levinsky. All of the bets were on races run in the United States.
