Would You Provide for the Care of Canada's Needy Consumptives?

THEM SEND YOUR CONTRIBUTIONS TO THE MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES. MAIN BUILDING FOR PATIENTS.

A national institution that accepts patients from all parts of Canada. Here is one of hundreds of letters being received daily—

John D. McNaughton, New Liskeard, Ont.: A young man not belonging here, and suffering from, it is believed, consumption, is being kept by one of the hotels here. He has no means and has been refused admission to our hospital. The conditions where he is offer him no chance. Could he be admitted to your Free Hospital for Consumptives? If not, could you inform me where he can be sent, and what steps are necessary to secure prompt admittance? NOT A SINGLE PATIENT HAS EVER BEEN REFUSED ADMISSION TO THE MUSKOKA FREE HOSPITAL BECAUSE OF HIS OR HER INABILITY TO PAY.

Since the hospital was opened in April, 1902, one thousand five hundred and twenty-four patients have been treated in this institution, representing people from every province in the Dominion. For the week ending November 20th, 1900, one hundred and twenty-five patients were in residence. Ninety-six of these are not paying a cent for their maintenance—absolutely free. The other twenty-nine paid from \$2.00 to \$4.00 a week. No one pays more than \$4.00. Suitable cases are admitted promptly on completion of application papers.

A GRATEFUL PATIENT
Nora P. Canham: Enclosed you will find receipt for my ticket from Grayhurst, hoping that you will be able to oblige me with the fare. I was at your Sanatorium ten months, and I was sent away from there as an apparent cure. I am now working in the city, and I am feeling fine. I was most thankful for the care I got from the doctors and staff, and I must say that I spent the time of my life while I was there.

TAKING THE CURE IN WINTER AT MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

The Muskoka Free Hospital for Consumptives is dependent on the good-will and gifts of the Canadian public. Money is sorely needed at the present time to make it possible to care for the large and increasing number of patients that are entering the institution.

NOVEL ATHLETIC MACHINE.

New Invention to Test Runners as They Run Around the Track.

A novel invention in the shape of an apparatus for testing the speed of runners, has been patented in the United States. It consists of a large wheel, mounted on a central shaft, which is connected to a series of levers and gears. The runner runs on a track, and the speed of the wheel is measured by the number of revolutions it makes in a given time. The apparatus is designed to be used on a track, and is intended to provide a more accurate method of testing runners than the old-fashioned method of timing them with a watch.

THE FIRST MINE CARD.

Started By a Duke in Brunswick in 1531.

At a dinner given by Duke Henry of Brunswick in 1531 he was seen to carry a long slip of paper, which he held up to the light. One of the duke's guests asked what the paper was for. He explained that it was a sort of programme or catalogue of the dishes to be served at the dinner. The paper was so small that it had to be held up to the light to be read. This was the first mine card, which is a small slip of paper on which the names of the dishes to be served at a dinner are written. It is a convenient and useful device, and is now used by many people at dinner parties.

WANTS \$10,000 FOR A TIP.

For Giving Information About Big Property in Bronx.

Thirteen years ago, on a New York street, Thomas Corbett told Patrick Coffey about an unincorporated property in the Bronx that belonged to a cousin, Henry Coffey, who had been drowned leaving no immediate heirs. On the strength of the tip, Coffey got possession of the property, which is valued at \$10,000. Corbett is now offering for \$10,000, which he says Coffey promised him, but says Coffey refused to pay.

REAL GOLD BRICKS.

Kilns Erected on Ancient Gold Mine in India.

Gold bricks, real ones, may be the means of restoring the ancient ruins of Golconda, near Hyderabad, in southern India, once known all the world over for its gold mines, but now a decayed city. The natural pits from which many centuries ago the precious metal was extracted have in course of time filled up with water. A contractor recently obtained permission to make bricks near the place and ten kilns were erected. The first finished bricks aroused curiosity by their yellowish tint, and analysis proved that they contained gold dust. On the basis of the yield of the sample bricks, the ten kilns will aggregate in weight about 12,857 pounds of gold worth over \$50,000,000. The site of the find belongs to the Nizam, or native ruler.

IF!

A credulous man was the census enumerator. When Hrawney the blacksmith declared he was 60, he believed him, despite the blacksmith's robust appearance, for robust blacksmiths seldom show their age. When Susan the spinster declared she was 23, he believed her also, despite her wrinkled face and greying hair, for spinsters do not care to show their age, either. But when Isaac the idiot wrote the figures 120 under the heading "Father, if living," the census enumerator rubbed his nose doubtfully, and thought this was a little too much.

Her Habit.

"What do you think the young wife of old Moneybags has developed into? She is always crossing or recrossing the ocean. She certainly keeps the transatlantic line busy." "You know, she was formerly a telephone girl."

Swat That Fly.

The transmission of disease by the fly is no longer a mere theory, but is a truth that has been scientifically established. Keep the flies out of your house. Get screens for the doors and the windows. Be on guard all the time. Keep screens over articles of food. Don't let flies get near the pantry, kitchen or diningroom. Be doubly careful about keeping flies out of the sickroom. They are likely not only to bring complications of new diseases, but to carry the invalid's disease to many others. These can be put in their screens promptly by taking the best prevention against bacteria disease germs introduced into their homes by flies. There is no more certain way to keep flies out of your house than to use a screen.

HARD ON FATHER.

Croquet Season Is Opened Again and Papa Knows.

Again the croquet season is with us. One notices it first when papa comes home from college. He slips in the side gate and writes across the lawn so as not to disturb the dog. He writes a very explicit note toward the door where a maid is daily burning.

THE KING'S THRONE.

Hard to Say Which is the Best Throne.

The King may be said to have a suite of thrones—small we say—of "occasional thrones." These are the thrones in the lower beds and play room among the gnomes. In the evening, sometimes, papa will play some with mamma just to assure himself for the night he goes to bed.

BRITISH STANDARD BEARER.

Lieutenant Herison, the tallest soldier in the British Army, will carry the standard of the Royal Horse Guards Blue in the Coronation procession.

AFRICANS LIKE UNIFORMS.

Much money is made out of cast-off police uniforms. Quantities are bought by African traders and exported to various parts of the "Dark Continent," where they are exchanged for palm-oil, ivory, skins, and other merchandise.

Stories of the Prince of Wales.

Many quaint and amusing anecdotes are related of the Prince of Wales as a small child, one being that he and his sister and brothers were invited out to tea at some Court lady's house, and when the hour for departure came he could nowhere be found to say good-bye to his hostess.

Ben's Logic.

"Ben," said his friend, waking up from a reverie in which he had been gazing abstractedly at the sky, "you are a very good fellow, but you are a little bit of a logician." "Thank you so much for a very pleasant afternoon!"

ALBUQUERQUE PLUM BLOSSOM.

One of the most beautiful plum blossoms in the world.

The plum blossom is a beautiful flower, and is one of the most beautiful in the world. It is a native of China, and is now cultivated in many parts of the world. The plum blossom is a symbol of beauty and grace, and is often used in art and literature.

At the Court of St. James.

But it is not everybody who realizes that the Palace of Westminster—the correct name for the Parliamentary Houses—contains a second throne.

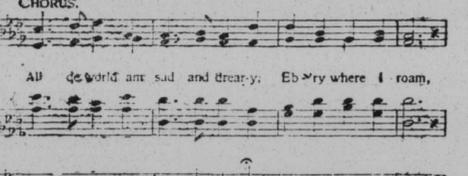

As Done in France.

"Some years ago," writes a well-known motorist, "I was being driven by a French friend of my acquaintance. He is as careful over his personal expenditure as he is reckless on his Panhard."

Swanee River.

Way down upon de Swa-nee-rib-ber, Far, far a-way, Up and down de whole cre-ation, Sad-ly I roam, Dere's wha my heart is turn-ing eb-ber, Dere's wha de bid-folks stay, Still long-ing for de old plan-ta-tion, And for de old folks at home.

All de world am sad and dreary, Eb-ry where I roam, Oh! dar-les, how my heart grows weary, Far from de old folks at home.

All 'round de little farm I wander'd, One little hut among de bushes, When I was young, One dat I love, Den many happy days I squander'd, Still sad-ly to my mem'ry rushes, Many de songs I sung, No matter where I rove, When I was playing wid my brudder, When will I see de bees a hum-ming, Happy was I, All 'round de comb, Oh! take me to my kind old nudder, When will I hear de banjo tum-ming, Dere et me live and die, Down in my good old home!
