DID NOT PARTICIPATE IN ANY ENGAGEMENT by Gatriel Dumont, Michael Buman, Napoleon Nauld, Dr. Roy, Quebee; Dr. Clark, Toronto; and Dr. Valle, Quebec, whose presence at the Court could be secured if sufficient time were given. The third affidavit by Lemieux is much to the same effect. Messrs. Greenshields and Fitspatrick addressed the Court

IN SUPPORT OF THE APPLICATION for the adjournment. The counsel for the prosecution agreed to assist the defence in procuring witnesses in Canada. but could not agree to the protection of the Court being offered to Dumont, Dumas, or other parties participating in Dumas, or other parties participating in the rebellion, if they were brought here from a foreign country to testify on be-half of Riel. The prisoner is understood to protest strongly against the plea of

ity being put in. To Escape Nervousness.

The first prescription is an ample supply of pure, fresh, cool, air. The nerves will always be weak if the greater part of the day and night be passed in close ill-ventilated and ovér-heated apartments. The nerves, more than the rest of the body, to be properly nourished require a full supply of oxygen. They will not endure vitiated air, whether the impurities come from sewer, gas-light, subterranean furnaces or the individual's own person, without making an energetic protest. A gas burner consuming four cubic feet an hour produces more carbonic acid in a given time than is evolved honic acid in a given time than is evolved from the respiration of eight human be-ings. Bear this in mind, you who suffer from nervousness, that when you have shut yourselves up in your rooms and lighted an argand burner (which con-sumes about twelve feet of gas per hour) you are to all intents and purposes imall taking oxygen from the atmosphere.

Is it any wonder that after several hours' exposure to this depraying air your nerves should as far as their weak state permits, and that your head should ache, your hands tremble, and that your mured with twenty-three other persons your hands tremble, and that your daughter's playing on the piano almost drives you wild?

Ontario Steel Barb Fence Company

Reas ons why the "Lockbarb" is the Best Wire Fencing Manufactured.

We use only the best English Bessemer Steel Wire, and we claim that in its construction is is superior to all other barbed fence wires. The wires forming the four points pass between the wires of the cable, interlock each other and pass around the cable, which makes the strongest barb in the world. It has the advantage of always presenting the barb laterally, which no two-pointed barbed fence does.

At a recent test of the strength of the "Lockbarb," made at the Northern Railway Shops, in Toronto, the following was the result: Ontario Steel Harb Fence Co.'y, 1616 lbs., as against 1060 lbs. and 912 lbs., the Toronto-Wire thus beating the Montreal Wire, and was a warded the
