

BASE RUNNING WINS GAME FOR EDMONTON

Deacon's Players Outclassed Home Team in a Game Played at the University Grounds and Notched Up Four in One Innings.

(Wednesday's Daily) Regina, July 28.—Edmonton had the locale apparently outclassed in this evening's game but Regina, based towards the last and four runs in the eighth, on clean hitting, made the score look much more respectable.

The ability of the Eskimos to run as well as to hit helped them to many of their scores.

Table with 2 columns: Player Name and Score. Includes names like Baxter, Moore, Letcher, Hoffman, McLeish, Dabchack, Bues, Hueston.

CANOEISTS DROWNED

Tried to Run Rapids in English River and Were Never Seen Again. Port Arthur, July 25.—Chas. H. Browne, Hudson Bay company factor at Long lake, 100 miles north of Jockhob, arrived in the city tonight. He reports that six weeks ago a young man named Church, who said his father was the senior member of the firm manufacturing the cow brand baking soda, in Jersey City and a multi-millionaire, accompanied by white guide named Morrison, arrived at his post on the trip to James Bay by way of English river. At a point where there are a series of falls ranging to a height of eight feet, Church and the guide, instead of portaging, tried running the rapids, a feat which the Indians had never attempted. The Indians saw them start on the trip about a mile away, but they were never seen to land and though a search was made the bodies were never found.

SECOND C.N.R. LINE TO THE PACIFIC

Portland Canal Short Line May Be First Section of Road Through Peace River to Edmonton

Vancouver, July 24.—Does the construction of the Portland canal short line mark the beginning of a new C. N. R. road through the mountains from the Pacific to Edmonton, traversing the Peace River and Grand Prairie districts en route?

That may appear a sweeping conclusion to be drawn from a little sixteen-mile railway built to carry ore from the mines up the valley of Bear river and its branches to tidewater at Stewart, but it is from overestimating the possibilities of the Portland canal short line railroad, now under construction, and to be practically all in the hands of the Canadian Pacific, that the time "Dan Mann" has been made, people call it, is ready to haul ore there will be four, five, possibly twice that many, mines with ore on the ground ready to load into empty tonnage in sight already to keep the short line busy if it were double-tracked and that sixteen miles will be doubled in a few days.

Not Likely a Local Enterprise. While the common acceptance is that this is one of Mr. Mann's private enterprises, projected and being built largely to furnish transportation for ore taken out of mines that gentlemen in Portland, Canada, have there are a number of other considerations which tend to qualify that view. First of these, it can scarcely be said that Mr. Mann's private enterprise, projected and being built largely to furnish transportation for ore taken out of mines that gentlemen in Portland, Canada, have there are a number of other considerations which tend to qualify that view.

DELAY IS DANGEROUS TO FRUIT GROWERS

Market Commissioners Advise Prompt Attention on the Part of Buyers—Small Fruit Reaches Edmonton in Good Condition on July 15th Last.

Victoria, July 24.—According to the latest report of Mr. J. C. Metcalfe, British Columbia's market commissioner to the prairie provinces, dated at Edmonton July 18, without exception the opinion throughout the prairie provinces as to the manner in which British Columbia's fruits are being packed this year, is highly commendatory, the same opinion being expressed as to the condition in which these fruits arrive at all market centers.

Dealing with fruit varieties, it appears that there have been very heavy receipts of British Columbia raspberries, their prices being generally well maintained at \$2.50 per case to the retailer. Cherries have been doing very well, although in some cases a much larger supply than in former years, and winter apples, especially in Alberta, are in strong demand, the supply falling far short of the demand.

The commissioner's report would indicate that Alberta fruit dealers look forward to the handling of British Columbia prunes, peaches, apricots, pears, autumn and winter apples, and that they expect obtaining large supplies of these fruits.

Wheat Cutting Monday. Immense wheat cutting will commence at the farm Monday afternoon. The first field to be ready for the binder is a field of Marquis wheat, the new variety of spring wheat which has been successfully grown by the Dominion Experimental Farm this last few years. The variety matures fully ten days earlier than the old varieties. Considering the weather this crop is splendid. This wheat has ripened quickly as a result of the very hot weather but is fairly well headed and there are indications that it will be a satisfactory yield.

Edmonton, July 28.—Edmonton had the locale apparently outclassed in this evening's game but Regina, based towards the last and four runs in the eighth, on clean hitting, made the score look much more respectable.

BRANDON FAIR OPENS

Attendance This Year Bigger Than Ever Before.

Brandon, July 25.—Brandon's big exhibition opened at ten o'clock this morning without any formal ceremony. While thousands of exhibitors and visitors are at the fair grounds, most of the day will be taken up with getting things in order and there will be no judging until Tuesday morning.

The great extent of the fair which is now opened is well illustrated in the fact that the C.P.R. alone has brought over two hundred cars of exhibits. The majority of the departments are filled to overflowing and there is hardly a class in the prize list in which there are not some exhibitors.

Considering the rather unfavorable season the exhibitors exceed all expectations as there is absolutely no indication that the short crop has interfered in any way whatever. Manager Smale has been advised from all districts to the effect that the crowds that are coming on excursions will greatly exceed those of other years and in some towns that doubtless the fair will be the year's excursionists will attend the exhibition.

To Avoid Accidents. In view of the danger of accidents and with the desire to avoid as far as possible anything of that kind, the fair board has arranged that autos will not be allowed on the fair grounds during the week, leaving all the other thoroughfares clear for farmers and citizens' carriages and other traffic.

Sup. Murray of the Experimental Farm in discussing the weather conditions today, said the weather which followed the heavy rain of Friday night has been ideal. The conditions now could not be better and it splendid weather is helping everything along.

KNIFE Fruit-a-lives

ONT., Feb. 12th, 1910. (seven years), was taken with her that we had to carry her to a class doctor, who pronounced her again examined by an and would be operated on at a later date to Kingdon to have an and cried and begged so helpfully that we were obliged to do that day. Luckily for us and for her, an Uncle came in with some "Fruit-a-lives" and insisted on Ella taking them. Good results were apparent, almost from the first dose, and the continuous treatment cured her.

"Fruit-a-lives" saved our daughter from the knife and to-day she is enjoying the best of health."

L. W. FOX, (Father), LULLIAN FOX, (Mother). Words cannot express the gratitude of Mr. and Mrs. Fox, and Miss Ella will always remember the "Fruit-a-lives"—the discovery of an eminent physician, and the truly medicine in "Fruit-a-lives" of fruit, 50c a box, 6 for \$2.50, or trial box, 25c. At druggists, or sent, postpaid, on receipt of price by Fruit-a-lives Limited, Ottawa.

CALGARY WREATHED IN PALL OF SMOKE

Cinders From Forest Fires Fifty Miles Away Rained on the City—Valuable Timber Limit Being Consumed.

Calgary, July 25.—All day yesterday the sky to the southwest and west had a lurid appearance and the air was heavily charged with smoke from the presence of fierce forest fires and prairie fires in that vicinity. The heavy wind blew all afternoon and charred cinders fell in the city. The fact that they fell in Calgary, although the nearest forest fire is over fifty miles distant, shows the ferocity of the fires and the strength of the wind.

The clouds of smoke that hovered over the country to the south led many people to believe that there were prairie fires at no great distance from the city and a number went out in automobiles to investigate. On their return they reported that there were no fires within twenty miles at least of the city in the evening.

A dispatch from Morley stated that the timber on the Eau Claire and Bow River lumber companies limit on last night was still burning fiercely and that unless the rain comes soon most of the valuable timber will be destroyed. So intense is the heat, and clouds of smoke are so thick, that the fire rangers and other officials are almost powerless to do anything to check the destruction now going on.

Football Country Ablaze. A telephone message last night from High River stated that it is reported that the timber limits of the Lineham Lumber company on Sheep Creek were on fire.

Sergt. Thomas and a party of men went out from High River yesterday to the foothills to assist in fighting the fires. The message further stated that the wind was so high yesterday that the air so charged with smoke and dust that it was difficult to tell just exactly where the fire is the worst. There is no doubt, however, that the whole foothills country is ablaze and that much valuable timber, grass and other property is being destroyed. The fires this season are the worst and most destructive in the history of that section of the province.

SEE BIG BLAZE. Officers on Steamer Tell of Immense Fire They Saw. Seattle, July 24.—Comparing it in violence and extent to a volcanic eruption, officers of the steamer Dolphin, which arrived yesterday from Skagway, told of a tremendous forest fire, a hundred square miles in extent, which they judged to be twenty-five miles inshore from the Strait of Georgia, north of Howe Sound.

"This was the biggest forest fire I ever saw," said First Officer Deen. "We were nearest to it on Wednesday afternoon. The air was perfectly still and tremendous clouds of smoke rose in the form of a cauliflower, narrow at the base and gradually spreading over all the heaven. Along the horizon was a broad streak of flames. Then above that there seemed to be a little space clear of smoke and flames. I judged the flames to be several hundred feet high."

"When the ship was in latitude 49 degrees 15 minutes north and longitude 123 degrees 50 minutes west the hearing of the fire was north three-quarters west, and apparently forty to fifty miles from the ship. This would place the fire north of Howe Sound, which is not going to be."

According to Deen's bearings, the nearest town is Squamish, at the head of Howe Sound. This section of the country is heavily wooded with fine timber.

Lethbridge, July 23.—Mayor Adams who has put in most of the week on the estimates for the year says that the tax rate this year will probably be 13 mills on the dollar and perhaps 12 1/2. The public school board have not yet fixed the amount they will require this year but will hold a meeting on Monday night for the purpose of fixing it. The school rate is expected to be less than 5 mills. The municipal rate will be 5-13 mills and the debenture rate will be 2-3 mills. Thirteen mills will be a lower rate than the city has had for a number of years.

SECOND C.N.R. LINE TO THE PACIFIC

Portland Canal Short Line May Be First Section of Road Through Peace River to Edmonton

Vancouver, July 24.—Does the construction of the Portland canal short line mark the beginning of a new C. N. R. road through the mountains from the Pacific to Edmonton, traversing the Peace River and Grand Prairie districts en route?

That may appear a sweeping conclusion to be drawn from a little sixteen-mile railway built to carry ore from the mines up the valley of Bear river and its branches to tidewater at Stewart, but it is from overestimating the possibilities of the Portland canal short line railroad, now under construction, and to be practically all in the hands of the Canadian Pacific, that the time "Dan Mann" has been made, people call it, is ready to haul ore there will be four, five, possibly twice that many, mines with ore on the ground ready to load into empty tonnage in sight already to keep the short line busy if it were double-tracked and that sixteen miles will be doubled in a few days.

Not Likely a Local Enterprise. While the common acceptance is that this is one of Mr. Mann's private enterprises, projected and being built largely to furnish transportation for ore taken out of mines that gentlemen in Portland, Canada, have there are a number of other considerations which tend to
