What about the replacement of lost hair?

When the hair has fallen out, the follicle is not necessarily destroyed, and prompt, unremittent attention, such as described below, will tone the hair, making machinery and stimulate the vessels and tissues to action.

Hair health depends upon a clean, sound scalp, the pores of which are open, the glands active and the blood circulation in correct condition. It stands to reason that if the scalp (which contains the hair-producing machinery) is in perfect order, the hair will be good.

Your money back if Purity Flour does not prove entirely satisfactory in the baking.

DON'T simply buy flour from the dollar and cent side of it. Buy high-quality flour. That means PURITY FLOUR. The first little extra cost is more than made up by the extra number of loaves of bread it makes—by the superiority of the bread and pastry in sweetness of flavor and nourishing qualities. Buying Purity Flour is a safe investment. You get large returns, not only on account of Purity's ability to produce more, but because Purity contains the greater nutriment and the vim of a strong hard wheat flour. Food made from Purity Flour gives the consumer health, snap and force, which cannot be gained from the use of the weaker soft wheat flour.

"MORE BREAD AND BETTER BREAD"

**PURITY FLOUR**

You can buy as little as a 7 pound cotton bag or in 14, 24, 49, and 98 pound sacks. Also in barrels and half-barrels

Purity may cost a little more than some flours but you'll find its more than worth the difference. To be must bear the trade mark.
