cuping prominent positions in the
industrial world, none stand out more
conspicuously than a Twillingate
man, who came here 33 years ago.

We refer to Mr. Titus Hodder, who
was born in the northern metropolis
in 1872, and is now the president of the
Hodder Construction Co. of Brad-

dock, Pa.
For over 25 years Mr. Hodder has
been interested in contracting and
building, and has now a business of
which he and his fellow countrymen
may well be proud of.

In the community in which he re-
sides, Mr. Hodder is greatly respect-
ed, both in commercial and social
circles, and the many large contracts
awarded his firm show how satisfac-
tory his work has been.

Amongst the large contracts award-
ed to the Hodder Construction Co.,
Inc., we may mention the High
Schools at Braddock, Turtle Creek,
Beaver Falls, Duquesne, Rankin,
etc., the Capitol Theatre and Brad-
dock Theatre, City Hall, Braddock,
Masonic Temple, Braddock, the Moose
Temple and Malta Temple, Braddock,
and numerous business blocks, resi-
dences and manufacturing plants.

In the summer of 1924, Mr. Hodder
took a trip to Europe and the Holy
Land. His visit occurred at the same
time as that of Archbishop O'Connell,
and Mr. Hodder accompanied the pre-
late's party to Rome on their visit to
the Pope.

This summer Mr. Hodder has gone
on a trip to the homeland to visit his
mother in Twillingate. He is expected
back by the "Newfoundland."—Boston
Weekly.

GRIPPE.

Renews Notes

As this place is very seldom noted
for writing to your paper a few items
may be of interest to your many read-
ers.

The people here with very few ex-
ceptions are industrious, hard
working type and the fishermen pro-
secute their hazardous calling from
early summer until late in fall with
the result, that Government relief is
practically unknown to the hardy fish-
ermen of Renew's who labor earnestly
and from Cape Ballard Bank and Re-
news Rock and Bantom Groduns they
bring the fish to help support their
wives and families.

The season's voyage was a very poor
one especially in Codtraps which were
almost a failure. However as there
are only very few traps engaged at
the fishing here, their failure does not
mean a bad voyage, as the hook and
line fishing is carried on until late in
the fall and the majority of fishermen
generally procure enough fish to
square their bills and provide for their
families during the winter season.

A slight improvement is noticeable
in the fishery the past few days, and
several boats fishing with trawls on
Cape Ballard bank received fair catches.
We trust that by reel up time all
these fishing will considerably aug-
ment their catches, and that squid
bait and favourable weather will en-
able them to carry on their work for
some time yet.

OBSERVER.

Renews, Sept. 14th, 1925.

Personals

(Nfld. Weekly).

We are glad to welcome at the office
of the "Weekly" during the past week:
W. B. Tiffin and Will Tiffin, former-
ly of St. John's, and now of Albany,
N.Y., where they are both employed
at structural bridge work. They
came on to the city especially to at-
tend the great Outing of the Newfound-
land Societies at Norumbega Park,
and will also visit relatives in Chel-
sea.

Cecil Strong, formerly of Old Perli-
ande and now residing in Somerville,
Mr. Strong came to the U.S. 5 years
ago and paid a visit to the homeland
last summer in the Sable I.

He expects to take another trip
next summer. He is now employed
in the Atlantic & Pacific warehouse
at Somerville.

John Cooper, also of Old Perli-
ande, has been in Boston for two years and
has a position with the B. F. Smith
Artesian Wells Company, of Boston
and Somerville. He is also looking
forward to a vacation to the homeland
next summer.

Mrs. Michael Manning of Revere,
whose husband was for 18 years chief
warden of the Penitentiary at St.
John's. On Mr. Manning's retirement
on pension two years ago, he and his
family came to this country to live,
his two brothers being located in Re-
vere. Mr. Manning is now in the em-
ploy of Houghton & Dutton.

Mr. N. Snow, buyer for Bowring
Bros., Ltd., of St. John's, who return-
ing via New York from a business trip
to England. After a short stay in
Boston, Mr. Snow left on Thursday
last by rail for Newfoundland. He re-
gretted that he could not extend his
visit to include the Outing on Labor
Day, as "Nat" is a well-known sport
fan.

Mr. Richard Maher, the well-known
tinsmith of St. John's, who arrived in
Boston a few weeks ago on a visit to
his son John, in Whitrop. Mr. Maher
enjoyed a well earned vacation with
his many friends and relatives in
Greater Boston and returns home by
S.S. Newfoundland on the 21st.

His son John, is a buyer at Hough-
ton & Dutton's, and is doing well.

Nature's Danger Signals

Nervousness, melancholia, backache,
headache and pain in the side are all
nature's danger signals, which indi-
cate some ailment peculiar to a woman.
When such warning symptoms appear
women may avoid much pain and suf-
fering if they will rely upon Lydia E.
Pinkham's Vegetable Compound, as its
tonic, strengthening influence speedily
removes the cause and restores the
system to a healthy normal condi-
tion.

Novelty gloves of overseas kidskin
have turned out and embroidered
hand taps on double scallopes.

Corner Brook Notes

Two young business men at Corner
Brook were before the Court on Sat-
urday, charged with a violation of the
Customs Act. They were fined \$250
each and a quantity of liquor—over
80 gallons—confiscated.

A Magisterial enquiry into the
tragedy on the Humber on Sunday
evening was held at Corner Brook on
Monday. A number of witnesses were
examined and it was found that no
blame could be attached to anyone.

In order to cope with the outbreak
of Typhoid Fever at Corner Brook,
we understand the Health Officer has
requisitioned the Isolation Hut, for-
merly used as hospital, from the N.P.
& P. Co.—Western Star.

"Mecca is sold at all dealers in 30c.,
60c. and \$1.20 sizes."

5,000 Years Old

FIND OF URNS IN ENGLISH
QUARRY.

Delving into the rock face at Stan-
ton Quarry, near Buxton, Derbyshire,
not long ago, workmen discov-
ered three burial urns of crude
black pottery, containing calcined
bones, which are believed to be 5,000
years old.

The largest of the urns, 17in. in
height and with a decorative mould-
ing round the top, is to be presented
to the British Museum.

"The urns were baked before men
really knew how to make pottery,"
said Mr. W. Allen Milton, a member
of the Buxton Archaeological As-
sociation, to whom the discovery was
at once reported. "The largest is
probably one of the finest Celtic re-
mains found in this country."

Here and There

ENJOYABLE BAND CONCERT.—
The band concert held in Bannerman
Park last night by the Methodist
Guards Band, was largely attended,
and proved thoroughly enjoyable. The
concert was held in aid of the Child
Welfare Fund, for which a goodly
amount was realized.

TRUCKMAN HAD CLOSE CALL.—
Yesterday afternoon a truckman, driv-
ing along Duckworth Street, had a
narrow escape from being seriously
injured, when one of the barrels on
the load shifted from its position, and
knocked him from his seat to the
ground. Had it not been for the
presence of another truckman, who
stopped the horse, the wheels of the
cart would have gone over his body.

Dresses for Evening

WOMEN WHO TAKE THEM BACK.

Mr. H. G. Selfridge, Junior, address-
ing the Draper Summer School at
Balliol College, Oxford, said that al-
though customers took out dresses for
one evening and brought them
back and said they would not fit, his
firm knew that the dresses had been
worn, but they did not mind because
it made a customer happy and con-

tempted.

Mr. S. F. Cook Dudley, in a paper
on "American business methods,"
said that the first thing that struck
him was the huge turnover and the
lack of small businesses in New York.
They were dealing in millions, while
we in this country were only dealing
in thousands.

In New York they had a cash busi-

ness system under which no one could
have an account unless he had a de-
posit account with a firm. Customers
must deposit a sum in the bank and
they received 2 and a half per cent
on the daily balance. They were
allowed to purchase goods up to that
amount.

One store has \$5,000,000 on de-
posit, but, according to the law of

New York, they were not allow-

ed to touch that money, which was
Government inspection. If the
money was not spent in six months
it was withdrawn.

Publicity, or advertisement,
treated in the United States as a
valuable asset to a business and
an expense, the cost varying
from two to three per cent. on the

advertising.
