CROP REPORT OF THE CANADIAN PACIFIC IS OF A VERY OPTIMISTIC CHARACTER

Winnipeg, June 24.—The C.N.R. crop report for this week indicates that although moisture was badly needed during the last two or three weeks, the crops have not, as a rule, suffered very severely, and Sunday's rain put them in splendid shape again. In many of the Hartney farmers' districts, the crops never looked better than they do now. The report is very optimistic and is in excellent condition, many farmers having wheat up to ten inches high. The most favorable reports came in from the district all along the Hartney, Oak Point, Brandon, Kipling, Emerson, Carleton Place, and Regina sub-divisions, and the crops in these localities will make great progress since the recent heavy rain. Altogether there is hardly a district which reports unfavorably regarding the crop. Rain was greatly needed during the last few days and Sunday's deluge will insure a quick growth for several weeks. The report from Moose Jaw district states that the crop there is growing very rapidly, and is two weeks ahead of last year. The report is in progress throughout the west, weather conditions for this work being all that could be desired.

INADEQUATE RAINS MAKE WHEAT STRONGER

Trading, However, Was Light All Over Yesterday; Quietest Day of Season

Winnipeg, June 24.—Inadequate rains over the United States spring wheat belt caused American markets to hold strong, and in sympathy the local market was firm, but traders were light. One prominent member remarking that this was the quietest day of the season. Winnipeg opened higher for 1-16 higher, and closed 1-16 to 1-8 higher. Minneapolis opened 1-16 to 1-16 higher, closing 1-16 to 3-16 higher. Chicago opened 1-16 to 1-16 higher, closing 1-16 to 3-16 higher. Oats were easier and flax firmer. HASN'T HIT THE BULL'S-EYE YET
Canadian Pacific stock has been selling with comparative sedateness lately, but it is not believed that the bear campaign on the stock is by any means over. Mr. Bear has quit shooting for the present, but if his ammunition holds out, he will probably hit the 200 spot.

Chicago Wheat

Chicago, June 24.—Pessimistic crop reports, due to hot winds and lack of moisture came today from so many points in the Dakotas that active buying of wheat resulted and prices took an upward bent. The market closed an upward bent, 1-16 to 3-16 last night. Corn closed with a net gain of 3-8 and 1-2 to 3-8.
