ADVERTISER PRINTING CO'Y, BRANCH OFFICES.

"The Advertiser" is an organ of now dependent opinion. The ADVERTISER alone

"The Advertiser" nental Free Trade,

"The Advertiser" looks forward with future as that of an Independent Canadian Nationality, in equally friendly alliance with the United States and with Great Britain, believing that such a status would be best for Canada, best for Great Britain, and promotive of the best attainable relations with the United States. As to Im perial Federation, sometimes spoken of, the ADVERTISER as yet has seen nothing proposed that bears any stamp of practicability, and in any case infinitely prefers | tinue to command excellent prices therethe grander and more really hopeful scheme of a federation of the English-speaking peoples of the world.

"The Advertiser" advocates prohibition of the manufacture and sale of intoxicating liquor; and all expedient general legislation and persuasion

"The Advertiser" is an advocate of equal rights for women, whether as regards the franchi or equal wages for equal work.

" is a believer in Chris-"The Advertiser" is a believer in Chrissiders the time has come when the various Christian denominations should come closer together. Those bodies which are now nearest should unite first. Under the pres ent system there is an unjustifiable waste of men, means and effort. The ADVERTISER will endeavor to promote the movement for Christian union not alone by direct appeal and argument, but by seeking to present the best rather than the worst side of each get a majority of 4. One of these days the

"The Advertiser" advocates Obligatory practicable. Nothing would so much purify electoral contests. Nothing would so much enforce the idea that the tranchise is a duty, not a chattel.

> God's in His heaven, All's right with the world. -[BROWNING

London, Saturday, Oct. 24.

THE GOVERNOR-GENERAL.

The discussion on the conduct of the Governor-General continues. Two well-defined views of his Excellency's

functions find favor in the country, and both are worthy of consideration in the present crisis. One is that as a constituhim, for salary and expenses, something Mke \$100,000 a year. Adopting this view, the argument is that when the Government last spring resolved to request a dissolution of Parliament on the false pretense that the United States had requested it to begin its reciprocity negotiations, the Governor-General must have had full knowledge of the deception, or he must himself have been deceived. If he was cognizant of the fact that the Ministers, for purposes of their own now fully laid bare, they officially stated their reasons for dissolving Parliament on amoribund voters' list and on the eve of a needed redistribution, then Lord Stanley must be held to be particeps criminis, for in obeying the beheats of the Ministers he was a party to the swindle. It may be, however, that the Ministers decreived the Governor-General as well as the people in their desperate effort to get the elections over before the impending exposures of the last few months. In that case, taking the view that the Governorwere lying to him and to the people when they officially stated their reasons for dis-

should be powerless. in accord with the gated to him by the people. If this is a orrect principle the Governor-General is an unnecessary appendage to the body the \$100,000 a year in their pockets, and the work of signing the public documents migh devolve upon an automaton figure need be no more than a hundred dollars of In these days of invention this change ould be brought about without any fric ion. And then, by and bye, when Canada omes an independent Nation, the auto maton can give place to a real Executiv leant have responsible functions, and one behind whom no delinquent Ministry car

NEWSPAPERS AND EDITORS. The Baptist Convention has been discussing the manner in which the denomina tional organ, the Canada Baptist, has been edited. It need surprise no newspape editor to find that the members were no unanimous in their indorsation of the work done by the editor of the Baptist. Nevertheless it is an undoubted fact that Prowork, for Alexander Mackenzie is as genial and kindly a man as ever lived. The honorable gentleman was master of the describe principles of the denomination. Here was a disposition on the part of some the members of the convention to take a ground that the editor should portain and represent the averfessor Wells has conducted the paper with single eye to the advancement of the distinctive principles of the denomination. There was a disposition on the part of some of the members of the convention to take the ground that the editor should secortain and represent the averviews of the members o the Church. That would be an imposs nility. There are over 30,000 members in the division represented. How can ar

jurious to the best interests of any iournal. GOOD PRICES FOR CATTLE.

accordance with the average view of that

mit him considerable latitude and individu ality. To be a mere organ nowadays is in

A casual glance over the Chicago stock yard notes in the Breeders' Gazette indicates that finished beeves for export, weighing 1,500 pounds and upwards, conmuch higher, in fact, than any Canadian market quotations we have noticed during the past season, or private reports of sales by feeders to exporters. For instance, in the last issue of the Gazette mention is made of nine large lots of cattle which sold at from \$6 10 to \$6 45, the ruling prices being \$6 25 and \$6 35. Over 6 cents per pound has been a frequent quotation in Chicago for the right sort of tario lots this season going at over \$5 50, \$5 and \$5 25 being commoner prices for

A MAJORITY IN ONTARIO. The popular majority for the Liberais in Ontario at the last general election was 7,276. According to an official report from Ottawa 178.871 votes were polled for Liberal candidates and 171,595 for Conservatives. But for the rascally gerrymander, the Liberals would have good majority of the members for this Province, whereas the dice-loaders managed to gerrymander will be undone, and the sooner

A SCOTTISH SENSATION.

Prof. Bryce, M.P. for Aberdeen, has vocacy of a special tax on the owners of deer forests, on the ground that the forests are a luxury of the wealthiest class, who can well bear the burden. Prof. Bryce also advocates the enactment of a law prohibiting the creation of new deer forests. We can well understand why this should ause a sensation in the old world. The territorial magnates have had things way for hundreds of years, and they naturally think that their ancient privileges should be maintained, even though the cultivators of the soil should suffer thereby. There is no reason why the taxation on cultivated lands should not be lightened by the imposition of a higher tax rate on lands reserved for tional ruler, while in the main guided by pleasure and the stimulation of vermin that his advisers, the Ministers of the Crown, he make periodical raids on the crops of neighhas certain duties to the people who pay boring farms. The deer forest is a luxury lection of taxes on British imports, luxuries bear almost the whole burden. The same principle should apply to lands reserved for rich pleasure-seekers.

THE DOUBLE-BRAIN THEORY.
[Rochester Post Express.]
Dr. Hammond says we have two brains.
This accounts for the fact that some men think twice before they act once.

GRIM LOOKOUT FOR MICARTHY.

[Toronto Telegram, one-time admirer of D'Alton.]

posures of the last few months. In that case, taking the view that the Governor-General has some responsibilities, he should have embraced the earliest opportunity to take the unworthy men to task and to wash his hands clean of them. As he appears to have taken no action whatsoever, and to have deserted his post at Ottawa while the grave offenses charged to his Ministers were under exposure, one is forced to the souclusion that he regards himself as a more automaton, who has no right to do anything except he is bidden to do it.

We confess that we are inclined to the idea that he really should be an automation, and that it is right that a man when he had a sale langhable as it is non-sensical. In these days what we should cultivate are peace and plenty and happiness and the onward march of morgess in

all those achievements which make a people truly great and noble. Were we to pay more attention to these things and less to Denisonian Rule Britanniaism, Canada would become a country far more inviting to her own children as well as to outsiders. When we look the solid facts straight in the face we find that the Toronto warrior's caramels become olives—for in fifteen years from date a large percentage of his youthful heroes will owe allegiance to the Star and Stripes. Much mischief, we doubt not, will accrue from the antics of Colonel Denison. He appears to be perpetually spoiling for a fight in time of peace. It would son. He appears to be perpetually sporting for a fight in time of peace. It would appear, indeed, as if he had a cut-away coat made of Union Jacks, and this garment he trails after him on the streets of Toronto, daring somebody to tread upon it. Another conspicious warrior on this cocasion was the tremendous James L. Hughes, the champion Orangeman of the county of York, who loves the Queen and county of York, who loves the Queen and hates the Pope with all his heart and soul. These little demonstrations are not calculated to create a friendly feeling towards us on the part of Unele Sam; and as we cannot see any glory to be achieved for Canada by their continuance it would, it seems to us, be better policy to turn out attention to something more practical and sensible.

ALEX. MACKENZIE AND HIS SUC-CESSOR.

["Knoxonian" in Canada Presbyterian.]
One of the objections made against the
Hon. Alexander Mackenzie when Premier
and Minister of Public Works was that he and Minister of Public Visions in his case, was rather curt. The curtiness in his case, if there was any, certainly arose from overwork, for Alexander Mackenzie is as genial was ever lived. The

WITH THE WORKINGMEN.

A Striker Arrested—Collapse of the Chi-cago Cabinetmakers' Strike,

A year and a half ago, while the Gurney molders at Toronto were out on strike, Wm. Duplex and Joseph Maroney were convicted of intimidating men who were were out on ball, and to some of the jury men, they beat him badly. Maroney was arrested for assault and sentenced to two concurrent sentences of eighteen months imprisonment. Duplex escaped and went to Rochester. That was in May, 1890, and he returned the other day. His wife lives in Oshawa, and he came to visit her and was arrested.

The Chicago cabinetmakers' strike has come to an end, and the men have returned to work at the old rates in every shop in the city. The strike began in Sep

tember.

Four thousand Berlin printers decided Thursday night to ask their union to order a general strike on Saturday in case of the refusal of the employers to grant a working day of nine hours and an advance of 33 per cent, in wages.

Meetings of the printers employed in Breslau and Leipsic were held in those cities and preparations were made for the general strike of German printers which seems to be determined upon for to-morrow (Saturday). It is generally admitted that a wholesale strike of printers throughout Germany will be immediately ordered.
