

The Ontario Liberal Leader

N. W. ROWELL, K. C.

"There is not one thing the liquor party can devise with all their money, that they are not doing to kill me and my people, if they can do it."—Mr. Rowell, at Thamesford.

"The Government have chosen to stand by the bar. They have had the majority and they could have wiped it out, even as they perpetrated their gerrymander."—N. W. Rowell.

FOUR CROWDED MEETINGS IN OXFORD COUNTY ACCLAIM ROWELL

Liberal Leader Tours His Own Riding and Speaks for Colonel Mayberry — Conservative Extravagance Roundly Scored by Both Members.

[Special to The Advertiser.]

WOODSTOCK, June 14.—Four remarkable addresses to remarkable audiences were delivered in Oxford County by Mr. Rowell yesterday. The stuff that the slender man is made of never showed to better advantage. It was a physical and mental exhibition that none but an inspired and earnest man could have given. He had audiences, great and small, and great or small alike, he held them spellbound. They hung upon his words. Mr. Rowell's meetings in Oxford have all been notable in this regard. People have come to listen and have gone away impressed.

On his Oxford County tour the Liberal leader did not deliver stereotyped speeches.

Each audience was given a fresh feast of an able and eloquent man's inspiration as the many significant issues were laid before them.

Four Meetings Held.

The meetings were held in Harrington, Lakeside, Kintore and Thamesford. At the former two places the people gathered in the afternoon, and the little halls held goodly audiences of men and women who had dropped their work to hear Mr. Rowell, in Kintore and Thamesford, where the halls were engaged for the evening, the places were packed. Mr. Rowell's reception in all these places was splendid, and the people thoroughly enjoyed his arraignment of the Government's extravagance, the alienation of public lands, the inefficiency of the heads of the departments of Education, and agriculture, and the wobbly attitude on the bilingual school question.

They vigorously applauded his enunciation of his policy upon the open bar question.

Throughout the trip the leader was accompanied by Messrs. E. W. Nesbitt, K.C., the federal member for North Oxford, and George Wilkie, barrister, an old East Nissouri boy, who delivered fighting campaign speeches.

When the Liver Gets Torpid

There Is Nothing Like Dr. Chase's Kidney-Liver Pills To Set It Right.

Mrs. C. L. Cook, 248 Tenth street, Brandon, Man., writes:—"I have used Dr. Chase's Kidney-Liver Pills for the last four years for liver trouble, and can say that I have had great satisfaction and help from them. I find that I do not need any doctor if I use them when the liver gets torpid, and believe that they are exactly suited for my case. My husband has used them for kidney trouble with good results, and my daughter in Winnipeg has been helped a great deal by the use of these pills. We say we can't keep house without them, and have cheated the doctors here out of a good many visits. I think Dr. Chase's medicines are just the thing, and have recommended them to many people who have used them with good results."

By keeping the liver active and the bowels regular Dr. Chase's Kidney-Liver Pills prevent and cure such disorders as biliousness, constipation, chronic indigestion and headache. One pill a dose, 25c a box, 5 for \$1.00; all dealers, or Edmondson, Bates & Co., Limited, Toronto.

J.P. COOK CO LIMITED

THE STORE THAT SERVES YOU BEST

Huron and Northern Ontario Railway of 1,000,000 acres, at 33 1-3 cents per acre for timber land. The prospectus of that company showed this to be worth \$9,240,000, according to their estimate, whereas the estimated cost of the railway was only \$8,400,000. The Government had sold two timber limits to the Jackson Lumber Company for \$1 per acre, and the deputy-minister had confessed that he had no estimate upon the quantity of timber. Names of three friends of the Government had appeared in the transaction, and these had transferred their interest to the syndicate for some reason immediately the deal was closed.

"How can you expect the public to have confidence in a government whose ministers so conducted themselves on the bilingual school question on the eve of an election?" asked Mr. Rowell, as he recounted the various utterances of Dr. Pyne, J. J. Foy, Dr. Reaume and Sir James Whitney in 1911.

"It's the duty of the Government to see that every child shall receive a good English education, and that's not being done today in some localities for lack of efficient teachers. If a child's parents desired that he should receive another language, facilities should be provided, and the privilege accorded."

Unfairness of Gerrymander.

The unfairness of the gerrymander was exposed in a detailed analysis of ridings effected.

The bulky Government was not playing the game with the minority, and if it were any game but politics, any decent sport would refuse to associate with a man who "loads the dice," said the speaker.

"As the Toronto World says, it is an evidence of the decadence of the Government. Why do they maintain plural voting in four Toronto ridings? Because they are determined to deny us a fair show."

Mr. Rowell's appeals on behalf of his abolition of the bar policy were masterful, earnest, and eloquent.

"Why haven't the Government passed their anti-treating bill?" he asked. "In this manifesto, announcing the election, they don't even do respect to their own dead child by holding a decent funeral over it. The Government have chosen to stand by the bar. They have had the majority, and they could have wiped it out even as they perpetrated their gerrymander."

Liquor Party After Him.

"There isn't one thing the liquor party can devise, with all their money, that they are not doing to kill me and my people if they can do it, but from now until five o'clock, the night of June 29 I am going to devote every ounce of ability and energy to this issue. My responsibility is not greater than yours. It is on your hearts and consciences to protect the women and children from this menace. If we in Ontario take the lead, Manitoba and the other provinces will do the same."

Hearty cheers were given for Mr. Rowell, Mr. Mayberry and the King. Other speakers at the Thamesford meeting, besides those previously mentioned, were: Rev. W. S. Galbraith, Rev. A. G. Harris and E. W. Hutt.

The meeting at Lakeside was presided over by George Manson, at Lakeside by Donald Mackenzie, and at Kintore by J. Dunster.

FIREBUG IS AGAIN BUSY AT LISTOWEL

Four Places Destroyed Sunday, With Patent Evidence of Incendiarism.

[Special to The Advertiser.]

LISTOWEL, June 14.—After lying low for two weeks, a firebug again got busy early today, and as a result, J. H. McDonald's flour and feed store, A. C. Champ's barber shop, D. J. Wilkie's pool room and bowling alley, and the McDonald Hall annex are in ashes. The loss will be fully \$10,000.

As a result of the reappearance of the incendiary, many are terror-stricken, as last night after a blaze broke out, all bearing unmistakable traces of being deliberately started. On the occasion of the last bad fire, which destroyed the sash and door factory, many merchants urged that a provincial detective be called in, and the council took steps to do this, but it was not followed up.

Now the agitation has been renewed, as many of the best businessmen fear that their stores or factories are liable to be set on fire at any time.

Indications of Incendiarism.

At today's fire, there were many indications of a firebug's work. A most serious situation occurred when the blaze was at its height and a valve went wrong at the pump-house, and for eight minutes the firefighters were without water. The blaze then spread to spread and wipe out one of the town's best business blocks.

"CASCARETS" ALWAYS STRAIGHTEN YOU UP

When Constipated, Headachy, Bilious, Stomach Sour, Breath Bad.

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous, and upset, bothered with sick, gassy stomach, or have backache, and feel worn out. Are you keeping your bowels clean with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out all that was best in our national life. The Government had failed to face this issue.

The Education Department.

The Government had placed at the head of the department of education a man, who, though amiable, could make no claim to the necessary qualifications for administration. The Conservative press had noted this weak spot.

The speaker read from the Kingston Standard, the Hamilton Herald and the Toronto Telegram about Dr. Pyne's lack of back-bone.

The Government had been alienating the public domain at an enormous rate, in land grant to the C. N. O. Railway of 2,000,000 acres; in the sale to the Lake

ORWELL YOUTH LOSES HAND BY SHOTGUN

Cartridge Explodes as He Picks Weapon Up—Bucksfoot Enters Ochee.

ORWELL, June 14.—Clifford Huffman, aged 20, son of Merritt Huffman, had his left hand blown off and was shot in the temple and cheek late yesterday afternoon when a shotgun

accidentally discharged. It is expected that he will recover.

He had been out shooting crows and on coming in to finish up his chores, stood the gun, which still had one cartridge in it, against the approach to the barn.

When he finished his work he reached for the gun, grabbed it by the muzzle and commenced to pull it toward him. The stock struck a timber and the trigger snapped.

The charge of bucksfoot tore Huffman's hand to pieces and the shot struck him in the temple and cheek with his face streaming with blood and his hand gone, the young man made his way to the house, where help was summoned.

Tonight he is resting quietly and every hope is entertained for his recovery.

\$250 THE PRICE FOR SLASHING PICTURES

Said That Militants Have Standard Rates For Crimes.

[Canadian Press.]

London, June 15.—According to the Daily Express, the authorities have discovered that the militant suffragettes pay regular tariff rates for the commission of acts of violence. As an example, it says, \$250 is the price paid for slashing a valued picture.

The Express says the three stained glass windows damaged in St. George's Church last night were historical, having been made in Mechlin, Belgium, about the year 1500.
