NO COMPETITIVE SPORTS TODAY

Closer and closer is the curtain being drawn over Sunday public performances. The Park's Board last night reached the conclusion that baseball, cricket, bowling or other competitive games must not be played at Beacon Hill or on any general recreation grounds, over which they have control, on the seventh day. They take pains to explain that it is not proposed to interfere with individual liberty. Thus any person may indulge in a quiet sociable game of bowls, perhaps pitting his right arm against his left in local competition to the pasture; a baseball enthusiast may knock "skys" for the purpose, and a cricketer may bowl to keep his arm in shape. Such exercises are permissible, but should such sportsmen go a step farther and introduce a contest among themselves, or among any form of a game of any kind, immediately he renders himself amenable to the board's ruling. Last year the subject of Sabbath games was brought to the attention of the board by Superintendent England, who stated that complaints had been made by citizens residing near the parks and he wished to know what the board decided on that matter. The board had decided to do nothing. Personally he did not object to the action without the sanction of the board.
