Last Saturday some twenty members of the Toronto bicycle club took a run eastward on the Kingston road. The day was fine but the road was miserable. The Kingston road was at one time known throughout Canada as one of the finest roads but if it continues as it is at present it will have to be avoided as unrideable. The Torontos will meet this afternoon at 2.30 at the corner of Yonge and Bioor streets for a run northward.

Arrangements were made yesterday for having a match between two junior clubs played on the Jarvis street orounds this afternoon before the match with the senior clubs. Consequently the Etnas will play the Pickering juniors at 2 o'clook. One ticket admits to both matches. The match between the senior clubs (Pickering v. Toronto) will be especially interesting as it will decide who shall compete in the final tie with Queen's university next

Toronto Chess Club. A match, grits v. tories, was held in the thenseum club rooms Thursday evening at. The score was as follows: TORIES.

Interpreting a Judgment. Editor World: Would you kindly assist

Editor World: Would you kindly assist me in determining the meaning of the following passage from a late judgment of one of our learned judges at Osgoode hall:

The question depending upon the impression to be derived from the very conflicting evidence on the several particulars, but upon which on the whole I think I have arrived at a conclusion which, at all events, is satisfactory enough to myself, though there is no doubt evidence to the contrary!

Compare this with Mark Twain's letter to Messrs. Perkins, Wagner, et al., written during his senatorial secretaryship and beginning, "It is a delicate question."

It seems to me the question in both cases is dealt with somewhat peculiarly.

In the above case the question must feel particularly lonesome, looking in vain for its logical predicate!

Public Ventilation of Domestic Trouble Editor World: What a deplorable con dition society must be in when husbands and wives must ventilate their grievances through the public press. Is it because they suppose everybody is so specially interested or that they desire revenge? Many, no doubt, are interested in such scandals, but the majority of right thinking records dealers it. It is a noor plan scandals, but the majority of right thinking people deplore it. It is a poor plan
for either husband or wife to take a
third party, aside from family connections,
into their confidence as to the faults, of
either husband or wife. What cannot be
settled by themselves let them not give it
to the world, especially for their children's
sake. In tuture I trust we shall see less of such yarns.

Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon treatment for catarrh. Out of 2000 patients treated during the past six months, fully innety per cent, have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent, of the patients presenting themselves to the regular practitioner are beenfitted, while the patients medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the presentseason of the year is the most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 305 King street west, Toronto, Canada, and enclose stamp for their treatise on catarrh. —Montreal Star. 26 Catarrh-A New Treatment.
