

THE FRIGHT AND FLURRY

THE PAUL MALL GAZETTE READS THE COZYERS A LECTURE.

What is Necessary in the Emergency—A Modified Suspension of the Habeas Corpus Act suggested. LONDON, Jan. 26.—The Paul Mall Gazette says it marvels at the fright and flurry exhibited by the morning papers when the whole damage caused by all the dynamite outrages amounts to less than £100,000, and no loss of life has been occasioned by them. The Gazette says it is ungrateful and foolish to scream about America. If O'Donovan Rossa was hanged to-morrow and the collection of money for the skinning fund made a criminal offence it would fall to stop the outrages. It instances Russia and Germany, where, notwithstanding the silencing of speech and papers, the outrages cannot be stopped. "We must keep cool heads," it says, "strengthen the police force, sharpen the wits of the detectives and punish heavily the assassins and those who aid them. We must discriminate between the assassins and those who are trying to effect social and political reforms by legal agitation." The St. James Gazette advises a modified suspension of the habeas corpus act. The Standard editorially says: "England asks no favor from the United States government. We only ask our brethren on the other side of the Atlantic to do what they feel to be right. We wish for no measure of repression or punishment that measures of repression or punishment that would be incompatible with social freedom." Another editorial appeals to the people of Great Britain not to weakly indistinguishable vengeance on the Irish, who must as a race have been guilty of this cowardly crime.

DAVID ON THE DYNAMITERS.

A Plea in Extension of Their Actions

Rossa's Motive Personal Revenge. LONDON, Jan. 26.—Michael Davitt, speaking of the London outrages, to-day said the dynamite operations had fewer sympathizers in Ireland and less in America than was generally supposed. He believed Patrick Ford and O'Donovan Rossa were not actuated by mercenary or blood-thirsty motives. The dynamites consist of two classes, those who are convinced that it is impossible to persuade English statesmen of the reality of Irish grievances by legal methods, and those who have suffered for the Irish cause and their relatives with social freedom. Davitt said experience had shown that agitations were without result, while movements bordering on revolt produced different results. He alleged that it was impossible for Rossa to forget the degrading insults received while in an English prison. He said that the secret police were fastening the outrages through their agents such as McDermott. They were less the secret police, and the less the secret police, the more the secret police were present. He said that the dynamites were present of more desperate and reckless agents in the secret police. He said that the dynamites were present of more desperate and reckless agents in the secret police. REBUKED BY THE CHURCH.

An Enthusiastic Dynamiter Effectually Stopped by His Priest.

DUBLIN, Jan. 26.—At a meeting of the local branch of the national league at Clonmel to-day Town Councilman Phelan spoke in justification of Saturday's outrages in London. Approaching a climax he cried out: "As long as England withholds Ireland's just rights, these explosions by dynamite will continue." This declaration raised such a furious storm of dissent that Phelan was silenced. Then a catholic priest who was presiding over the meeting denounced the work of the dynamiters as an outrage against Ireland and a sin against God and man. He said that the dynamiters were guilty of a crime against God and man. He said that the dynamiters were guilty of a crime against God and man. He said that the dynamiters were guilty of a crime against God and man.

WINDSOR CASTLE CLOSED.

No Visitors to be Allowed to the Royal Apartments.

LONDON, Jan. 26.—All the royal apartments at Windsor Castle have been ordered closed to all visitors. This step has been taken by her majesty in consequence of the extraordinary precautionary measures generally advised by the ministry. The queen has conducted herself so stoically throughout all the previous dynamite panics that her present action attracts much attention.

CUNNINGHAM IN COURT.

HE PREFERS TO BE A COCKNEY BUT IS AN IRISH-AMERICAN.

His Hearing in the Dock—A Report that he has furnished information—His Statements Proved to be False.

LONDON, Jan. 26.—Cunningham was conveyed to Bow street police court by a strong guard. When arraigned he smilingly surveyed the court and the crowd which had congregated. Inspector Abernethy deposed that he examined the prisoner at the tower, and that he was confused and gave contradictory answers to the questions. He first gave a wrong address, and then stated that he lived in Scarsboro street, Whitechapel; that he worked in the docks at Liverpool until the beginning of the year, when he came to London to try to better himself. He formerly resided in America, and made a voyage on the steamship Adriatic. The prisoner was known at his lodgings in Whitechapel as Dalton. A box and bag belonging to the prisoner were seized, but his contents had not yet been made known. Inquiry by telegraph revealed the fact that Cunningham was unknown at the alleged lodgings at Liverpool. The prisoner was remanded until Feb. 3. His examination tended to convince the police that he at least had guilty knowledge of Saturday's crime. It was proven that he was a native of Cork, that he lived at least five years in the United States, and arrived in England last autumn and came directly from New York. His pretence that he was an Englishman was all carried out after his arrest, and his drawing stammer being peculiarly noticeable. But in his examination under oath he spoke rapidly and distinctly as an eloquent and clearly demonstrated that his cockneyism was a clever piece of dissimulation.

If there be any such law, then the government is responsible, and not until then. The fact is we have no federal laws which cover such a case as this.
