

DODGE PATENT WOOD SPLIT PULLEYS

Best Belt Surface, Lightest, Strongest, Best Balanced and Most Economical Pulley in the World.

WITH OUR PATENT BUSHINGSYSTEM

Every Pulley will fit 20 different sizes of Shafting, and guaranteed to give from 30 to 50 per cent more power than any other pulley. Every Pulley a Split Pulley, 70 per cent lighter than cast iron, 50 per cent lighter than wrought iron or steel. Strong enough for any power required. Made in any size from 9 in. to 16 ft. in diameter.

The following is one of numerous letters received after having used our pulleys: HAMILTON, May 10, 1899. Dear Sirs—In reply to yours of the 8th inst., would say that we have now in use a considerable number of your Split Pulleys, and we have had the best of our opinion of them from the fact that since we got the first three on trial we have purchased no iron pulleys. We find we can run with much less noise, with less wear on our shafts, and the saving of time when it is necessary to change a pulley is a considerable item in their favor. For our work generally they have proven very satisfactory. Yours truly, HAMILTON COTTON CO.

We also manufacture Special Pulleys for the TRANSMISSION OF POWER BY ROPE, Under the Dodge Patent System, and are prepared to give estimates for Transmissions of any capacity, from 5 to 500 h. p., at any angle or distance. The economy and many desirable advantages of this Rope Drive System are practically illustrated by actual use in

OUR NEW FACTORY

AT WEST TORONTO JUNCTION.

Which is now in full operation, and is the Largest and Best Equipped Works in British America for the manufacture of ALL KINDS OF BELT AND ROPE PULLEYS.
