An adjourned meeting of the York Town-hip Council was held in the township's hall, inton, on yesterday atternoon, Reeve Hill the chair. Present: Deputy-Reeves ilding, Heslop, Sylvester and Lucas, pplications were received from Mr. George C. Moore for the position of essessor, and from W. L. Bond, M.D., for Medical Health Officer. They were laid over until

next meeting.

A communication from the Toronte Aqueduct and Power Company submitting a draft of an agreement and requesting the council to pass a bylaw granting the company the privilege to supply the township with heat, light, water, power, etc., was received.

The irrepressible E. A. Macdonald addressed the council, saying that as the Legislature would meet next month he would like the council to pass a bylaw a first and second time to-day and refer it to the Solicitor and County Engineer for their consideration.

eeve Hill said that, while he had a cer-Reeve Hill said that, while he had a certain amount of sympathy with the canal project, he did not think the council should make undue haste in the matter.

Mr. Ingham, who was present, addressed the council and said he hoped the members would be careful what action they took in this matter. He would like to know what the Township of York wanted with heat, light, water, power, etc. If this petition was granted the company would have the power of tearing up the streets and roads. Besides, he believed not a particle of the scheme is feasible and that the promoter merely wished to obtain a francitise that would be a merchantable article to be disposed of at some future time.

future time.

The wind was taken out of the promoter sails when Mr. Lucas moved and Mr. Hesle seconded, That the petition be laid over for ture consideration. E. A. then withdrew his petition and mad

seconded, That the petition be laid over for future consideration.

E. A. then withdrew his petition and made himself scarce.

Petitions were received praying for the appointment of John L. Frazer as assessor, M. Fitzgerald for sanitary inspector, John T. Brown health inspector, James Moffatt for road commissioner for division No. 7; from the Richview Park Volunteer Fire Co. asking for a grant of \$100 for purchasing new appliances, all of which were laid over until next meeting.

A communication from H. Parsons complained that McDowall's shooting ground in Coxwell-avenue is behind his house and makes it dangerous for the immates and for passers-by. He asked the -ouncil to take steps to put a stop to the shooting. The clerk was instructed to notify Mr. McDowall of the complaint.

Mr. William Jackes, treasurer, presented a report of the Road Commissioners' account with the township, which showed a deficiency in every division except two, as follows: No. 1, A. H. Quinton, commissioner, excess \$533.73; No. 2 and 3, Joseph Francis, excess \$530.85; No. 6, C. R. Bache, excess \$348.43; No. 7, M. Fitzgerald, excess \$2073.82; No. 8, Joseph Hind, excess \$704.83; No. 9, W. Carson, balance to credit \$288.90; No, 10, John Smith, excess \$249.13; No. 11, J. Dollery, \$914.50; No. 12, J. Jackson, \$569.22; No. 13, S. T. Humberstone, \$244.05.

Re Grace Fark sewer, the reeve and engineer were appointed a committee to endeavor to effect a satisfactory settlement.

Moved by Messrs. Heslop and Goulding that the treasurer be instructed to prepare a statement of the debts of the corporation up to Dec. 31 last. Carried.

A motion was passed instructing the collectors of rates that the provisions of the Assessment Act must be strictly complied with when making their returns to the township treasurer.

A bylaw was passed authorizing the reeve and treasurer to open an account with the

A bylaw was passed authorizing the reeve and treasurer to open an account with the Imperial Bank and authorizing them to overdraw the same to the amount of \$60,000. The fellowing letter was received from Mr. John T. Moore, which he presented in person: Reeve and Council of the Township of York GENTLEMEN, -In the interests of truth I

GENTLEMEN,—In the interests of truth I ask an official reply to this question:

"Has a dollar of my taxes ever been returned to the county treasurer by the township as unpaid?"

The last Recorder in a personal attack upon me impresses its readers that my taxes were so returned. Of course it is false. What are the facts? The collectors' receipts, which I have at hand, show as follows:

Taxes for 1889. 3 797 24 Paid Dec. 13, 1889 Taxes for 1892... 636 49 Paid Dec. 13, 1889. Taxes for 1891... 686 49 Paid Dec. 18, 1890. Taxes for 1891... 852 65 Paid Dec. 14, 1891. Taxes for 1892... 166 56 Paid Dec. 1, 1892. 597 43 Paid Mar. 29, 1893

In 1892 I paid my general taxes on Dec. 1, but as the Toronto and Richmond Hill Railway was given right of way over the steel bridge, I refused to pay locals until March 29 of 1893, when I paid them also, under procest. To circulate misleading and mischievous statements involving the township on the one hand and leading ratepayers on the other cannot but elicit from you the goverest condemnation of the act and of the miscreant. As an act of justice to one of your largest ratepayers, I trust you will make this letter and your reply public through the representatives of the press that report your proceedings.

I am, gentlemen, yours respectfully,

JOHN T. MOORE.

JOHN T. MOORE. The treasurer was authorized to write Mr.
Moore giving him a statement of all taxes
paid on his property, and the dates of such
newments

payments.

The members of the council all expressed themselves that the article in The Recorder conveyed the idea that Mr. Moore's taxes Old, Reliable. were unpaid.

The editor said that he took Mr. Peter-The entor said that he took mr. Feberman's figures, in his article in The Globe, to be correct and the editor thought himself that Mr. Moore's taxes were unpaid, and in justice to that gentleman he would make any amends he could.

The council then adjourned.

The Duchess-street Wake. An item appeared in The World of the 17th inst. referring to Mrs. Ann Thorpe, formerly Miss Annie Connolly, who died at the House of Providence a couple of days previous to the publication of the item, stating that she was a notorious funder and well-known character about town. The World has since been informed that this was untrue. Mr. Connolly and family are most respectable people and are well known in the neighborhood in which they reside.

Mrs. Thorpe herself was for many yoars the beauty of the neighborhood and never drank at all until her husband's death, two years ago, since when she has not been quite right in her head and has been somewhat addicted to liquor. Mr. Thorpe, her husband, was a member of a much-respected and well-to-do family living in the city, and is altogether a different party from the one that was given to The World as Annie Connolly's husband. Mrs. Thorpe will be buried this morning at St. Michael's Cemètery. in item appeared in The World of the

come fagged out know what a depressed, miserable feeling it is. All strength has gone and despondency has taken hold of the sufferers. They feel as though there is nothing to live for. There, however, is a cure—one box of Parmelee's Vegetable Pills will do wonders in restoring health and strength. Mandrake and Dandelion are two of the articles entering into the composition of Parmelee's Pills.

6 ADELAIDE EAST.

For Ales, Porters, Wines, Liquors, etc.

Editor World: While I quite agree with the editor of "Yachtsman and Cauceist" with regard to the non-utility of the life-saving qualities of the Sons of England Richboat and crew in its present state of inefficiency, I beg to call his attention to one of his remarks about lifeboats, viz.: "A real lifeboat is intended for use on an exposed rocky coast, where a vessel may be stranded and broken up in a smother of surf that would utterly preclude the use of an ordinary boat." Does he mean by that assertion that a proper lifeboat can venture where a vessel has been broken up? If not, what does he mean by the above extract? From what I know of the methods of saving life from shipwrecks, I understand the lifeboat was to rescue the crew before the ship got stranded. Then the rocket apparatus came into use. The above remarks are written extent to the control of the contro Then the rocket apparatus came into use.

F. J. Lewis & Co. from Kennett, Hopkins Co.: The action of the English Governmen in abandoning the effort to maintain the pric of silver in India has seriously disturbed th market for all kinds of securities in London, an silver itself has declined to 30 1-20, the lower price yet reached, with a prospect of a further decline. Bankers in India have for months bee accumulating silver, expecting the next move of the Government would be the imposition of a import tax of 10 per cent. The decline in the price of American securities in London rather staggered the market at the opening to-day, but he effect of it did not last long, and traders by persistent buying caused an advance of from i-

the effect of it did not last long, and traders by persistent buying caused an advance of from 1-2 to 1 per cent. The volume of business is not large, and at no time has there been much activity. Most of the news of the day has been rather against higher prices. Sugar took a tumble all by itself on Washington reports that there is a possibility of all protection being removed. It looks as if the scheme of the sugar men was to antagonize the Tariff bill with the income tax, and by mixing them up make one dependent on the other to prevent any legislation on either subject.

BIEAKFAST—SUPPER.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a cureful application of the fine properties of well-selected Coco. Mr. Epps has provided/ for our breakfast and supper a delicately-flawored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle malpidles are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in Packets, by Grocers, labelled thus:
