

WOMAN HAD NERVOUS TROUBLE

Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I have also had my oldest girl take it and it did her lots of good. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCEBAUGH, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound. This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

NOTE AND COMMENT

Russian torpedo boats are said to have destroyed 54 enemy sailing vessels in the Black Sea in one day. This is a record worth while.

Here is Sir Mackenzie Bowell at the age of ninety-two setting out on a four thousand mile journey to the Yukon, while a whole lot of young fellows are not enlisting for fear they would get seasick crossing the Atlantic.—Toronto Star.

The Imperial Parliament will be asked to so amend the Rhodes Scholarship Act that German students will in future be denied the privileges of attendance at Oxford. Thus a portion of Rhodes' dream vanishes into thin air.

Toronto Star—In the eastern country when two men have a lawsuit a candle is lighted for each man and the one whose candle holds out the longest wins. It is much the same in Canada. When two men get into a law fight the one whose dough hangs out longest wins.

An intimation comes from Ottawa that Patriotic Fund expenditure, having exceeded all expectations, new problems will have to be solved to meet the added burdens which are daily being placed on the fund through the steady recruiting which is going all over Canada. There is a possibility of taxation being imposed directly on the people of Canada, and with this in view a committee is to be appointed by the Patriotic Fund, to enquire into the matter of direct taxation and to approach various schemes of revenue raising for this

purpose. The fund has enough money now to last it some months, but the last appeal made by the Duke of Connaught, for \$8,000,000 in January, was calculated to last till the beginning of 1917. Ten millions were secured. It is not that people who pledged themselves to subscribe certain sums each month to the Patriotic Fund are not paying, for this is not the case, but the demands have become very heavy.

The United States, which is in the habit of regarding Canada as a settlement somewhere to the north of them, and endowed with little reason, if any, as proven by the vote on Reciprocity, might do well to take an example from this country in the matter of going to war. The Americans apparently intend to send green troops into Mexico which has probably, the most villainous climate possible, and this without camp life training. No matter what the Mexicans may be able to do, there is no possible doubt what the climate will do, and a great many unnecessary hardships will be the result. Also in the matter of soldiers' pay. The rates as published show an American private receives pay at the rate of fifty cents a day and it does not appear that his wife or descendants get a cent. Canada may be lax in some regards, but her public men understand that when the man of the house is called to war, the government that calls him must look after that house.—Times.

How to Run a Hotel

The editor of the Simcoe Reformer hands out this without any charge:

"The proprietor of a leading hotel at London, and an excellent one at that, recently declared that his dining-room had habitually shown a loss of \$2500 per year. Very little to wonder at though, when one reflects on the fact that the hotels, by clinging to very restricted hours for serving meals, have driven the mass of the public to the restaurants. The far-seeing hotelman who wishes to live through until the pendulum swings back to license, it is not likely to be a very prolonged period, will get busy and try to run a better hotel than he ever did. And one of the things he will do will be to fire his 'American' dining room and substitute a cafe in which his patrons will be made to pay for what they ask for."

Not Sufficient.

A publican was prosecuted recently for selling a bottle of whisky during prohibited hours. A bottle of whisky similar to that sold was produced as evidence.

The jury heard the evidence and retired to the jury room. They presently returned.

"My Lord," said the foreman, "the jury are quite satisfied as to the sale of the bottle, but they are not sure of its contents. May they have the bottle to satisfy themselves?"

"Certainly," declared the judge.

After a brief period the jury filed into the box again.

"Well, gentlemen, have you reached a decision?" asked the judge.

"No case, my Lord," said the foreman. "There was not enough evidence to go round."

The Whole Thing

From the Philadelphia Public Ledger.

A soldier in a hospital, on recovering consciousness, said: Nurse, what is this on my head?"

"Vinegar cloths," she replied. "You have had fever."

After a pause

"And what is this at my chest?"

"A mustard plaster. You have had pneumonia."

"And what is this at my feet?"

"Salt bags. You have had frostbite."

A soldier from the next bed looked up and said:

"Hang a pepperbox to his nose, nurse, then he will be a cruet."

Holloway's Corn Cure takes the corn out by the roots. Try it and prove it.

Humanty Classified

The world is divided into four classes:

First. Those who do not know and do not know that they do not know—these are the 'fools'—leave them.

Second. Those who do not know and know that they do not know; these are children—teach them.

Third. Those who know and do not know they know; these are asleep—arouse them.

Fourth. Those who know and know they know; these are wise men—follow them.

The women of the Philippine islands make some of the finest lace in the world from a strong silky fiber obtained from pineapple leaves.

Eighteen-year-old Magdalene Sattler of Cleveland, O., who is totally deaf, has been taught to sing, which is unusual for a deaf person.

A Philadelphia electrician is the inventor of a portable, motor-driven pipe threading machine which is supplied with current by the storage batteries of an automobile.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

Shears for trimming grass, mounted on wheels and with the handles so extended that they can be used by a person standing upright, have been patented by a Canadian woman.

An electric heater to be placed in a bathtub after it has been filled, to raise the temperature of the water to any desired degree, has been patented by an Ohio inventor.

A spark plug with two gaps, producing the sparks at once, is finding favor in England, the idea being that one gap is sure to work even if the other becomes clogged by soot.

Avoid harsh purgatives for children. Rexall Orderlies are sure, safe and gentle; 15c and 25c. Sold only at Rexall Drug Stores.—J. W. McLAREN.

A New York electrician has invented a device, small enough to be carried in a pocket, which enables a person to use a telephone without persons near him overhearing his conversation.

Boys that make a flapping noise as they pass through the water and leave a plainly seen wave have been invented in England to be towed behind vessels to guide following ones in togs.

For measuring cloth in a roll without unrolling it there has been invented a device that passes a thread between its folds and at the same time automatically measures the thread.

A wire clip, to be screwed into a door frame, has been invented for holding milk bottles out of the reach of cats and dogs.

Next to the United States, Germany has the greatest number of telegraph officers and the largest line mileage among nations.

It Makes New Friends Every Day.—Not a day goes by that Dr. Thomas Electric Oil does not widen the circle of its friends. Orders for it come from the most unlikely places in the west and far north, for its fame has travelled far. It deserves this attention, for no oil has done so much humanity. Its moderate cost makes it easy to get.

Waste steam from its municipal water and light plant is used by an Indiana city to heat its courthouse and two public schools.

In Europe the hydrogen, which is a byproduct of the manufacture of oxygen, is utilized to harden oils for use in the soap industry.

A power loom has been invented that is said to weave Oriental rugs that so closely imitate the genuine hand-made ones as to defy experts.

Luck means rising at six o'clock in the morning, living on a dollar a day if you can earn two, minding your own business, and not meddling with other people's. Luck means appointments you have never failed to keep, trains you have never failed to catch. Luck means trusting in God and your own resources.

Thomas Taggart, aged about 60, a well-known Mount Brydges carpenter, was found dead on the road between Delaware and Mount Brydges. Taggart was on his way from London, where he had driven earlier in the day. His horse was found grazing by the roadside. Heart failure may have caused his death.

No better protection against worms can be got than Miller's Worm Powders. They consume worms and render the stomach and intestines untenable to them. They heal the surfaces that have become inflamed by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and that their operation is altogether health-giving.
