R. MOODY'S visit to Toronto resulted, under the Divine blessing, in arousing deep, and we trust lasting interest in the great question of salvation. The Evangelist was used not only in the conversion of large numbers of hitherto careless men and women, but fresh zeal and renewed consecration on the part of Christians is noticeable in many churches. Another gratifying feature of the work is the fact that the influence of the Convention has been carried into the country towns and villages around Toronto. It is, of course, impossible (neither is it necessary) that full returns of those who professed to be benefitted, should be in our possession, but we have received most cheering evidences from many sources. The Committee has a list of nearly 200, residing in the city, who were aroused; and at a social gathering held in the Y. M. C. A. Rooms on Monday, 15th, over 150 men assembled, and evidenced by their presence and words that they had "passed from death unto life." We believe that the Convention will form an important era in the spiritual life of hundreds of individuals and many churches. May the Lord of the Harvest send more laborers into the fields, for truly they are white already to the harvest. Seldom if ever has there been such evidence of the Spirit's work among the people, and especially among Young Men. We sincerely trust that the pastors of the city and the country at large, may be led to follow up the work, and that the present winter season be marked by intense earnestness in the great and all-important work of bringing men to the Lord Jesus,—so that should He come, His children may be found at work, and not idly sleeping. He draweth near! Let us be up and doing.
