

The Pill that Will.

"The pill that will," implies the pills that won't. Their name is legion. The name of "the pill that will" is Ayer's Cathartic Pill. It is a pill to rely on. Properly used it will cure constipation, biliousness, sick headache, and the other ills that result from torpid liver. Ayer's pills are not designed to spur the liver into a momentary activity, leaving it in yet more incapable condition after the immediate effect is past. They are compounded with the purpose of toning up the entire system, removing the obstructing conditions, and putting the liver into proper relations with the rest of the organs for natural co-operation. The record of Ayer's Pills during the half century they have been in public use establishes their great and permanent value in all liver affections.

Ayer's Cathartic Pills.

Dr. Maybe and Mustbe.

You choose the old doctor before the young one. Why? Because you don't want to entrust your life in inexperienced hands. True, the young doctor *may* be experienced. But the old doctor *must* be. You take no chances with Dr. Maybe, when Dr. Mustbe is in reach. Same with medicines as with medicine makers — the long-tried remedy has your confidence. You prefer experience to experiment — when you are concerned. The new remedy *may* be good — but let somebody else prove it. The old remedy *must* be good — judged on its record of cures. Just one more reason for choosing **AYER'S Sarsaparilla** in preference to any other. It has been the standard household sarsaparilla for half a century. Its record inspires confidence — **50 years of cures**. If others *may* be good, Ayer's Sarsaparilla *must* be. You take no chances when you take **AYER'S Sarsaparilla**.
