News and Notes.

The wealthier Jews of Russia are forming secret clubs to facilitate emigration en masse.

The Chinese are helping the Methodists in Chicago. A church was in debt, and an orchestra of converted Chinamen volunteered to give a concert. The entertainment drew 200, and the musicians refused with scorn to accept even the payment of their car fare.

The latest contrivances for propelling street cars is credited to Philadelphia. Experiments have been made in that city to show that a horse-car full of people can be run five miles by the action of clock-work. Huge steel springs, which will be wound up by stationary engines at the terminus of the road, will furnish the motive power.

Don't Lie in the House.—"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers, etc.

If farmers and others continue to buy dust and ashes put up in big packs and sold for condition powders it won't be our fault. We have exposed the swindle time and again. *Sheridan's Powders* are the only kind we know of worth carrying home.

The Bishop of London has issued a pastoral letter, urging the claims of the Bishop of London's Fund. It states that during the last decennial period the population of the diocese has increased by 379,000, the suburbs in particular having grown so enormously that the work of the fund had almost to begin again, while the diminution of income made it difficult to maintain the grants for missionary clergy, and lay agents.

Mr. Gladstone recently completed the second year of his second Premiership. He has now held office longer than any Premier of the century—Pitt being partly of the last century—with the exception of Lord Liverpool and Lord Palmerston. Lord Melbourne held the blue ribbon of politics for six years and 266 days, Lord Beaconsfield for six years and 352 days. Mr. Gladstone has had in two terms a Premiership of seven years and seventy-three days. Lord Palmerston reigned for nine years and 146 days; Lord Liverpool for nearly fifteen years.

Great age carries with it a certain respectability whether it attaches to a person or thing. This is seen particularly in the case of *Johnson's Anodyne Lintment*, which is the most marvelous internal and external remedy ever discovered. It ought to be kept in every house.

Iron slag is ceasing rapidly to be a waste product. At an English iron-works it is employed as a non-conductor of heat. When it is ground it is moulded into bricks of great roughness, which are also impervious to frost, and 30 per cent lighter than common clay bricks. Cement, concrete, and artificial stone are likewise made from the slag.

GENERAL DEBILITY.—This convenient term includes numerous ill-defined and supposed incurable forms of disease, accompanied by general lassitude and exhaustion, without any ascertainable external or internal cause. The PERUVIAN SYRUP sends its renovating influence to the inmost recesses of the system, and has relieved in our community many cases of supposed incurable disease.

Sold by dealers generally.

The Report of the Church of England Temperance Society states that the returns from the dioceses last year showed 302,610 members. This year there was a grand total in twenty-five dioceses, from which returns had been received of 339,687 members. These figures are rather under than over the actual returns, owing to the fact that many parochial branches neglected to send in their returns. This year in eleven months, from April 18, 1881, to Feb. 28, 1882, the Executive had received £7,550 19s. 9d., showing an increase above the twelve months of last year of £239 1s. 5d. The expenditure had been £7,586 17s. 2d., or £35 18s. beyond the income.

The statistics of Unitarianism in this country, just compiled, show the total number of Churches to be 344, and of these 252 are without pastors or stated supply. Fourteen clergymen died during the past year, and only seven were ordained. The Unitarians support one foreign missionary, the Rev. Mr. Dale, at Calcutta.

ANSWER THIS.—Can you find a case of Bright's Disease of the Kidneys, Diabetes, Urinary or Liver Complaints that is curable that Hop Bitters has not or cannot cure? Ask your neighbors if they can.

According to the Statistics in the *Year Book of the Church*, the number of Confirmations held in the Diocese of England and Wales during 1881 was 1795, and the candidates confirmed numbered 70,554 males and 105,910 females, giving a total of 176,464. The proportion of females to males is in the aggregate far larger than many persons supposed was actually the case, but it varies considerably in the different dioceses.—*Literary Churchman.*

ROUGH SIEGE LAID TO HIM.—Mr. James O. Neville, the well-known General Import and Export Agent of the "Allen Line," and General Dominion Shipping Agent, of 538 Dorchester street, Montreal, is an active member of the Shamrock La Cross Club. "While on a late exhibition trip to the States," said Mr. Neville to the writer, "my old foe, the rheumatism, attacked me, and gave me a rough siege. I suffered with the ailment all through my trip and long after my return home. I tried several remedies and found them entirely useless. Having read the indorsements of well known people who had used St. Jacobs Oil, and been cured thereby, I determined to give it a trial. Upon my first application, I saw at once it was what I required. In two weeks time I was as well as ever, and fully able to attend to my business. I have not had the least suggestion of rheumatism since. It certainly is a remarkable remedy and one that seems to me to be infallible."

* Bloating headaches, nervous prostration and spinal weakness cured by Lydia E. Pinkham's Vegetable Compound.

Dr. Charles Doremus says the milk of the elephant is the richest he has ever examined. It contains more butter and sugar and less water than any other milk, and it possesses a very agreeable taste and odor. But we do not hear that any milkmen have proposed to stock their farms with elephants.

CAN'T GET IT.—Diabetes, Bright's Disease, Kidney, Urinary or Liver Complaints cannot be contracted by you or your family if Hop Bitters are used, and if you already have any of these diseases Hop Bitters is the only medicine that will positively cure you. Don't forget this, and don't get some puffed up stuff that will only harm you.

Improvements have been made in the telephone by which distance seems really to be annihilated, and persons in Boston and New York can converse intelligently and rapidly. It is believed that the possibility of telephonic communication with San Francisco and even with London is not far distant.

"Many silly people despise the precious, not understanding it." But no one despises Kidney-Wort after having given it a trial. Those that have used it agree that it is by far the best medicine known. Its action is prompt, thorough and lasting. Don't take pills, and other mercurials that poison the system, but by using Kidney-Wort restore the natural action of all the organs.

CHRONIC BRONCHITIS.

When Bronchitis take the chronic form the attending symptoms become greatly aggravated, and are associated with many of the very worst symptoms of Phthisis, viz., excessive cough, free expectoration, rapid pulse, night sweats, etc., and finally great debility and emaciation. In this stage the diagnosis between this and Tubercular Consumption is sometimes very difficult; and it is in this case that Cod Liver Oil, when the sufferers can retain it, is of special advantage; and PUTTNER'S EMULSION OF COD LIVER OIL can always be easily retained. In such a case it is invaluable. Under its use we find the cough cease; expectoration diminish, the pulse regain its regularity and force, night sweats cease, physical strength return, and the emaciation give place to renewed flesh. As this state of things may be a sequence of a cold which has been neglected, it behoves every one to be particularly careful of himself while laboring under a cold, no matter how slight it may apparently be. The main thing is to check the disease at its very inception, and the best means by which to attain this is by the early use of PUTTNER'S EMULSION.

FOR DYSEPSIA, WEAKNESS AND DEBILITY. From George S. Bixby, of Epsom, N.H.: "Having received great benefit from the use of *Peruvian Syrup*, I am willing to add months. I became so much reduced in health and strength as to be a mere skeleton of my former self. On being released, I was a fit subject for a Northern hospital, where I remained some two months, and then came home. My physician recommended and procured for me several bottles of *Peruvian Syrup*, which I continued to use for several weeks, and found my health restored, and my weight increased from ninety pounds to one hundred and fifty, my usual weight, and I have been in usual good health ever since. I can cheerfully recommend it in all cases of weakness and debility of the system, whether arising from an impure state of the blood, dyspepsia, or almost any other cause, believing it will in most cases give entire satisfaction." Sold by all druggists.
