- Students use videotex to take courses from their home or office. Study modules allow individuals to proceed at their own pace and test their knowledge at the end of each section.
- Families use videotex as an in-house computer for games and as an information service for advertising, news, weather and sports. For the ultimate in convenience, they use videotex to shop and pay bills, as well as bank at home.
- Tourists use videotex to reserve airline and show tickets, find out where to eat, where to stay and what to see on vacation.
