

Priority Sectors in the United Kingdom

A) *For investment and partnerships:*

1. agriculture, beverage and food products, with a focus on biotechnology;
2. bio-pharmaceuticals;
3. machinery (particularly automotive);
4. aerospace (which complements Canadian capabilities).

B) *For partnerships only, given the predominance of SMEs:*

1. ocean technologies;
2. medical devices;
3. environment/industrial wastewater technologies;
4. information technologies with a particular focus on multimedia, Internet and computer telephony integration technologies.
