JACK CHANTY

EVERY trapper and trader in the Canadian Northwest knew him as Jack Chanty. His cheery songs, accompanied by his guitar, made him a welcome visitor at any post or camp. Jack was a devil-may-care lad with plenty of assurance and good broad shoulders to back it up. No one knew where he came from, but it was generally conceded that he was from the "outside"—which meant that there was a portion of his life that had been city-spent and that was thus closed to inspection.

But Jack's retreat from the world was not effective, for his past, in the shape of Garrod and a girl, followed him, and how it all turns out makes a mighty interesting story of love and adventure in the Canadian Northwest.
