York is Also Doing Considerable Buying in This, Market

referring to the growth of the et for Porcupine stocks, Robert merer, in his weekly market let-"That New York is beginning to be come interested in these mines is evidenced by two or three deals which are at present pending or under negotiaion but the effect of this has not yet been felt. When this factor does come into play, as it undoubtedly will in the very near future, the boom will receive further tremendous impetus. ong time to arrive at the realization hat in its absorption in those disant fields of proverbial greenness, in vas overlooking tremendous potential wealth and opportunity on its own corstep but, now that appreciation of this fact has come, the domestic demand for Porcupine and Cobalt issues outvies the steady demand which there has been from the United States and there is Canadian interest in Canadian mines. The lack of knowledge of the mining camps of the north is a matter for surprise, but the public press is now giving more attention to developments in this section of the country. We, who have studied the conditions of Porcupine, have known for a long time past that there was every reason to believe that in the future, Northern Ontario would rival the great gold fields of South Africa Australia, but the great bulk of

the general public are only now coming to a realization of this fact." MARKET EASILY WITHSTAND VOLUME OF PROFIT-TAKING

H. B. Wills, in his weekly letter, says: "In spite of the tremendous volume of profit-taking indulged in during the past week, the mining security market has successfully withstood the onslaught and answered the test by advances recorded practically thruout the list. This ranking feature of the week's trading has conclusively proven the remarkable strength in the undertone of this market, as not in years have such huge selling movements been completely absorbed by fresh buying without the registration of severe declines."

STOCKS HELD UP WELL

Montreal Trading Most Active in Nova Scotia Steel-Forgings Improved.

MONTREAL, Dec. 10 .- Price move ments in local stocks continued their uneven course today, strength in one of two directions coinciding with heaviness in others. On the whole the market gave a good account of itself considering the severe pressure to which the New York list was subjected and its disappointing action in the lace of a remarkable tonnage state-ment by the United States Steel Cor-

Heavy buying of Scotia Steel was the cu.standing feature of the trading, up-wa.ds of 2400 share being taken on a two-point rise to 101, par toucked in the morning trading the advance continued a point higher ir the second session. In the late after-non the price eased off to 100 3-4. Stock was offered at 993-4 at the close.

There were few features in the balance of the market.

Falance of the market.

Forgings improved 1 over the previous high record price to 237, reacted to 233, out finished 236 or 1 up.

Steel of Canada improved fractionally, closing 1-2 up at 41. In the mis-cellaneous list Ogilvie continued strong.
Total business, 7573 shares, 210 mines, \$2500 bonds.

ANOTHER OLD COBALT WILL BE REOPENED

Ophir, in the Timiskaming District, Will Start Work Again Next Week.

The reopening of the Ophir mining property next week will mean that this is the fourth of the old mines to reopen in the favored Timiskaming the Ophir mine was shut down the shaft was put down to the 300-foot level. In sinking several rich pockets of silver were taken out, containing from 6000 to 7000 ounces of silver to the ton. It is the intention now after dewatering, which it is hoped to start on Monday next, to deepen the shaft to 500 feet to reach the contact. The power line crosses the property, and there is a full equipment of machinery at the mine. The Ophi ies about one-half a mile south of the Timiskaming and is close to the Adanac, on which good discoveries have recently been made.

A SUPPLEMENTARY examination for entrance to the Royal Military Collegawill be held on Monday. 19th January, 19t6, in order to fill 40 vacancies that have been created by Gentlemen Callets of the Royal Military College, who have been granted Commissions in the Canadan and Imperial Forces.
