THE TORONTO WORLD

ONE CENT MORNING PAPER.

No. 83 YONGE STREET, TORONTO. Daily World, 85c per year. Sunday World, in advance, \$2.00 per year. TELEPHONES: Business Office—1734, Editorial Rooms—323 Hamilton Office, 70 King-street east (next Postoffice), Telephone 604. H. E. Barrett, Agent. London, England office, F. W. Large, Agent, 140 Fleet-street, London, E.C.

A CONTEMPTIBLE FAKE. It is the general opinion that the criminal law in regard to corrupt practices at elections has been a dead letter during the past few months. The administration of the criminal law is in the hands of Grit officials, and there is a widespread belief that these officials have been negligent in the discharge of their duties. The leading position is given to three-column article in yesterday's Globe to prove the groundlessness of this belief, to show that the election laws and their administration by Hardy's officials are a far cry from what they should be.

A Stupid By-law. A rather curious notice relating to the use of hose for lawns has been issued from the City Treasurer's office, by request, it seems, of the City Engineer. It is dated August 16, 1899, and reads as follows: "You are only allowed to use the hose between 6:30 and 8:30 p.m., the very time when the lawns are most likely to be watered. The by-law is a particularly stupid one, and it is to be hoped that a citizen may enjoy sitting on a dry lawn instead of a wet one, as according to the by-law he is only allowed to water his lawn at this particular time."

COUNTY AND SUBURBAN NEWS. Toronto Junction, Aug. 16.—(Special.)—Thomas Cruse of Hockiss-avenue appeared before Mayor Laughton, charged with being intoxicated. He was fined \$5.00 and \$1.00 a day for 10 days. He had a scabbard and a shoemaker's knife concealed on his person, and had made frequent threats of what he would do with the knife.

East Toronto. East Toronto, Aug. 16.—(Special.)—The Excelsior Bicycle Club will send a team composed of the following members to compete for the Kingston Road race Saturday: Mr. Fred McCrean, Mr. J. J. Morris, C. Hewitt, J. Blyskal, and F. Dunn. The residents of Toronto, at a meeting last night, decided to sink a well on the property of the late Mrs. J. J. Morris, to provide the children with water.

North Toronto. Mr. Alexander Hogz, a resident of Meriton-street, Davistville, died yesterday at the age of 78 years. Deceased was engaged for many years with the late Senator Macdonald, and was highly esteemed. Three sons and one daughter are left by deceased. Mr. Fred McCrean of Deer Park has been the purchaser of a house and lot on Davistville-avenue, formerly owned by Dr. Brunkell. The house is a handsome cottage, about 200 feet of land is attached, and the price paid was \$1500. Collector H. W. Miller put the deal through.

DECLINE OF BRITISH TRADE. Referring to the recent statistics of British trade an English exchange says it is useless to blink any longer at the fact that the tendency is persistently against us. The fact is that our exports have been no increase in exports worthy of mention for ten years, and the domestic market is flooded with goods from all parts of the world. The fact is that the United Kingdom are beginning to call an "inane, fallacious and one-sided free trade system." Canada should encourage the iron industry. Never has Canada a more favorable opportunity for instituting a vigorous iron and steel policy than at the present moment. The bonuses which the Government has extended for the encouragement of pig iron production are probably all that have been developed to this feature of the iron industry. But there are other features of the iron and steel trade that should be the object of national encouragement.

Arthur Jackson, a young farmer of Ella, came mightily near death on Monday evening last through trusting too much to a treacherous bull. The animal had strayed from the Jackson farm on to a neighbor's place, and the young man went to bring him when the animal made a furious attack upon him. He was pitched yards at a time by the bull's horns, and gone before he had time to get out of the way. By catching a snag in the animal's nose, he probably saved his life, as in that way he was able to get to a fence, through which he crawled, and from there he was conveyed home, where Dr. Nelson found two ribs had been broken. In addition to many severe bruises, the young man is now expected to recover.

The animal had strayed from the Jackson farm on to a neighbor's place, and the young man went to bring him when the animal made a furious attack upon him. He was pitched yards at a time by the bull's horns, and gone before he had time to get out of the way. By catching a snag in the animal's nose, he probably saved his life, as in that way he was able to get to a fence, through which he crawled, and from there he was conveyed home, where Dr. Nelson found two ribs had been broken. In addition to many severe bruises, the young man is now expected to recover.
