NATIONAL TELEGRAPHS AND CABLES

The proposal to nationalize the telegraph systems of the Dominion is meeting with great favor throughout the country. It is part of the Dominion's telegraph system, and that the Government should monopolize the delivery of all letters, whether they are sent by telegraph or mail. We believe the country is prepared to support the purchase of the telegraph system of the Dominion by the Government.

The Dominion's telegraph system is a monopoly of the Dominion. It is a monopoly of the Dominion, and that the Government should monopolize the delivery of all letters, whether they are sent by telegraph or mail.
