URGES WORKERS TO RESIST ANY REDUCTION IN WAGES

Samuel Gompers, Head of American Federation of Labor, Speaks of Canada's Unions.

Boston, Nov. 9.—Five hundred delegates of the American Federation of Labor met here today in a ten days' session. Samuel Gompers, the president, delivered a strong report of the year's progress. He had somewhat to say of Canada for his executive position took him across the line several times during the past year.

Referring in his report to the labor movement in Canada, Mr. Gompers said: The trade union movement in Canada is keeping pace with the movement in the United States. Legitimately, our fellow trade unionists of Canada must have an absolutely free hand, unimpeded by interference from us of any character. We should give as we gladly receive, suggestions and advice which may benefit each other's policy.

Despite the predictions of opponents of international trade unionism, the gain in membership in the trade unions in Canada during the past year was about 700,000. It is estimated that our international trade unions, covering the membership in Canada, together with contributions paid by the unions, paid out only a few hundred dollars for Canadian unionists, although the amount reported by the international unions is \$12,000,000.

During the session of the Executive Council held at Toronto, Ont., and having in mind the conclusion reached in the New Orleans convention regarding the relations of the Canadian labor movement to that of the American, we had two conferences with the officers of the Dominion Trades and Labor Congress.

Good morning. How is your cold? Well, one is fashionable anyway, and if you have not one it's coming your way. Buy the usual good style of your dress. Such garments are made by the Dineen Co. These garments are stylish in the last degree and in quality and perfect in finish. See the \$200,000 exhibit on view in the show-rooms.
