STEEL RAIL INDUSTRY FOR CANADA. The efforts that the Provincial Govnment proposes to make for the eniron and steel in Canada are commendable, but they are being put forward disparity in the cost of producing iron and steel in the United States and Canada has always been very marked, but it is especially so at the present time. The recent collapse of the Lake Suerior Ore Pool has resulted in a drop in the price of Bessemer iron ore to about one-half the price that has prevailed for several years back. The standard price of ore from the Gogeble range last year was \$4 a ton, and Mesaba ore was somewhat less. Last week \$2.65 and \$2.40 respectively; but it is altogether probable that prices will go still lower, until some of the less favorably located mines shall be closed, when a compromise average price of

erhaps \$2.50 a ton may prevail. The average cost of digging ore from the Oliver mine and putting it on cars does not exceed 20 cents per ton, Some ing the long haul of more than 700

little, if any, short of that number.

promises to eclipse even the most expoint of view. Thousands will be added to the ranks of the cycling frater nity during the next few weeks, and the accretion will be going on more or less steadily all season. Enthusiasm less steadily all season. Enthusiasm for the wheel has pervaded all classes of the community. The middle-aged and the elderly have the rever almost as badly as the young people. The wheel is the one topic of interest in Toronto at the present time. There is a large increase in the number of bicycle stores over last year, and the decycle stores over last year, and the demand for machines is away ahead of what it was during the corresponding period last season. The feature of the present season is the popularity of the wheel with the fair sex. The desire to possess a wheel is as strongly implanted in the female mind as the desire to have a new hat or bonnet for Easter. The young lady of the day considers berself out of the fashion entirely if she is not able to take part in the great daily wheel parade. The manuwhen the pool broke, the price fell to cycle stores over last year, and the degreat daily wheel parade. The manuser Seven Things Which are Hard to Explain. miles to the Carnegie furnaces, near facturers have been on the lookout for pittsburg, the actual cost of the ore delivered at the furnace is far less than anyone believed to be possible, and the cost of reducing the ore to the form of Bessemer pig iron is also form of Bessemer pig iron is also form of the sales and the cost of the delivered at the furnace is far less than anyone believed to be possible, have already been sold during the whole of form of Bessemer pig iron is also for the lookout for a boom in ladies' wheels this season, and true enough the boom is here. LET US HAVE THE TARIFF.

President McKinley was elected in November last. Four months later, on March 4, he delivered his inaugural message. In that message the President referred to the Government's pledges with regard to the tariff, which the victorious party had made during the last campaign. He stated his opinion that the people had reason to expect those pledges would be promptly carried out and that they should reap as soon as possible the benefit of the mew policy they had decided to adopt. In response to the President and the strong for the state of the simplest and quickest method of against the act.

Mr. Laurier said: So far as the Government is concerned this is purely a local act, and it is not their intention that the people had reason to expect those pledges would be promptly carried out and that they should reap as soon as possible the benefit of the new policy they had decided to adopt. In response to the Presidential message Congress was called together in extraordinary session on March 15, and on the same day the new tariff was laid before the Howas of the propers of the lassed by the Legislature to discharge the president to disallow it. I may say that the Government's following notice was placed there on new policy they had decided to adopt. In response to the Presidential message Congress was called together in extraordinary session on March 15, and on the same day the new tariff was laid before the Howas of the lassed by the Legislature to discharge the president in a class that the state of the legislature to level the far at all.

and the rame of the Toronto Auer Light Company, Limited, and has recently completed the purchase of the Welsbach or Auer Light Palents for the whole of Ontario, outside of the London and Ottawa districts. The new company takes over the business of the Auer Light Company, established at Toronto, Hamilton, Kingston, Believille, Peterboro, Owen Sound, Guelph and all sub-agencies.

The directors of the new company are: F. A. Hilton (of Messrs, Clarke, Bowes, Hilton & Swabey), president; J. G. Bowes (of Messrs, Bowes, Jamisson & Co., Hamilton), vice-president; William Dineen; E. B. Freeland (of Messrs, Stark & Co.); E. G. E. Ffolkes (manager of the Wilkinson Plow Company); C. A. Duclos of Montreal (the president of the Canadian Welsbach Light Company), and C. J. R. Stiling, who is also managing director of the company. The secretary-treasurer is J. H. Thompson of Toronto.

It is interesting to know that there are over 10,000 Auer lights at present in use in the City of Toronto, and that the demand for the light is daily increasing.

The Nox, which is owned by the Miller brothers and has been the winning racing yacht of the club for several seasons is being extensively altered by W. W. Miller, mainly with the object of increasing aer speed. Her keel has been lowered and lightened about 1500 pounds. This will give her about four inches more freeboard and shorten her water line from 25 to 23 feet. Her sail area will be increased from 800 to 500 square freet and this change, with the others mentioned, will make her a better boat all around.

Mr. Miller is altering Dr. Smith's Nixfe along the same lines that he is following in changing the Nox. She will have a lower keel, more wall area and a new rig.
