FLYING RECORD

Ruth Law Travels Six Hundred and Sixty Miles Without Stop.

Binghamton, N.Y., Nov. 19 .- Attempting a non-stop flight from Chicago to New York, Miss Ruth Law, behind the wheel of a Curtiss biplane of the military scout type, shattered all American long distance aviation records for a single flight today, when she flew from Chicago to Hornell, N. Y., a distance of about 660 miles, bettering the record made by Victor Carl-strom on Nov. 2, by about 100 miles. A delayed start, together with the velocity of wind, which cut down her speed so that she was forced to des speed so that she was forced to descend to replenish her gasoline supply, is responsible for her failure to reach New York, said Miss Law after her arrival at Binghamton this afternoon at 4.20 o'clock.

Previous to today's flight, Miss Law had never made a single flight longer than 25 miles.

Miss Law covered a distance of about 785 miles in six hours and 50 minutes, time being deducted for the descent at Hornell.

The first 622 miles, the distance by rail between Chicago and Hornell, was made without a stop.
